# 1969 annual report Immigration and Naturalization Service

UNITED STATES DEPARTMENT OF JUSTICE  
IMMIGRATION AND NATURALIZATION SERVICE  
119 D Street, N.E. Washington, D. C. 20536

The Immigration and Naturalization Service had its beginnings on March 3, 1891, when Congress provided that there should be in the Treasury Department, under the control and supervision of the Secretary of the Treasury, a Superintendent of Immigration. In 1903, the Bureau of Immigration was established, and Immigration functions were transferred to the newly established Department of Commerce and Labor; in 1906, the Bureau of Immigration became the Bureau of Immigration and Naturalization; in 1913, the consolidated Bureau was transferred to the new Department of Labor and divided into two bureaus known as the Bureau of Immigration and the Bureau of Naturalization; and in 1933, the Bureaus were consolidated as the Immigration and Naturalization Service of the Department of Labor.

On June 14, 1940, the Immigration and Naturalization Service was transferred from the Department of Labor to the Department of Justice after Congressional approval of a plan submitted by the President under a general reorganization act which had been passed in 1939. Under terms of that plan, the office of Commissioner of Immigration and Naturalization and all powers and functions previously exercised by the Secretary of Labor relating to immigration and nationality were transferred to the jurisdiction of the Attorney General. Since June 14, 1940, the Service has functioned as a part of the Department of Justice under the direction of the Attorney General of the United States.

# Report of the Commissioner of Immigration and Naturalization

## General

The Immigration and Naturalization Service is responsible for enforcing and administering the immigration laws. The inspection of aliens seeking to enter the United States and the adjudication process, whereby decisions are made which grant or deny rights and privileges affecting the lives and destinies of many persons, are the two functions of Travel Control in the organizational scheme. As in every recent year, assiduous efforts were made to insure better use of the inspection force and to improve procedures, thereby enabling an unprecedented number of travelers arriving at ports in the United States to be examined within a very short time. Possibly, the outstanding innovation was the expansion of the accelerated inspection system, whereby a single inspector trained in the job of Customs, Public Health, Plant Quarantine, and Immigration inspection completes the inspection for the four agencies in 75 percent of the cases.

The investigations and Border Patrol functions of the Immigration and Naturalization Service are designated Domestic Control in the organizational pattern. Law enforcement officers found that almost every phase of their work was accelerated by the increase in offenders against immigration and nationality laws. Incidents of the smuggling of aliens into the United States were all too frequent; the use of counterfeit identification cards, false birth certificates, labor certifications obtained through fraud, marriages entered into to acquire a citizen spouse thereby avoiding the need for labor certification, aliens who came to visit but who stayed to work, crewmen who deserted their ships, and the all too common EWT's (entered without inspection) were all part of the composite picture of 283,557 deportable aliens located.

The Annual Report of the Commissioner General of Immigration for 1930 starts out with this statement, "The problem of regulating immigration varies in no small degree in complexity and difficulty inversely as

its volume is legislatively curtailed" This, of course, was at the end of the first year of the application of the national origins quotas. The purpose of the Act of October 3, 1965 was far different from that which established the national origins quotas. In fact, it may be said its main purpose was to eliminate this system. But, when, 40 years later, on July 1, 1968, the Act of October 3, 1965 was fully implemented, and there were no country quotas, and natives of Western Hemisphere countries were subject to numerical controls, again, subterfuges (as listed above) to circumvent the law were on the increase. The 1930 statement that new controls augment the difficulties of enforcement still seems to be true.

In addition to Travel Control and Domestic Control, another principal area of responsibility is that of naturalization and citizenship. This includes the examination of aliens and witnesses to determine whether the aliens qualify for citizenship through naturalization; the presentation of the facts in each case and recommendations to the naturalization courts; and the issuance of certificates to derivative citizens. The Service also carries forward a program of cooperation with the public schools in fostering citizenship education.

In 1969, citizenship responsibilities were met not only through the naturalization process itself but also by encouraging the education of aliens for citizenship through the publication of appropriate texts furnished the public schools for citizenship classes. Another responsibility that has expanded in recent years is that of issuing certificates to persons who derive U.S. citizenship either through birth abroad to citizen parents or through the naturalization of parents.

Other auxiliary services covered in this report are detention and deportation, the work of special inquiry officers, and the office of the chief law officer, the General Counsel, as well as the many support services of finance, personnel, procurement, statistics, records keeping, and management analysis.

# Travel Control and Adjudications

## TRAVEL CONTROL

This past decade has really been the decade of travel explosion. In 1969, 231 million inspections of aliens and citizens were made, a 43-percent increase over a decade ago. Even more striking is the mounting number of passengers arriving by air in international travel—2,357,565 in 1960 and 8,036,304 in 1969—a 241-percent gain.

Prior to June 1968, an international traveler could speed across the Atlantic Ocean in 5 or 6 hours and arrive at John F. Kennedy Airport to face individually and sequentially the following: the Public Health Inspector, the Immigrant Inspector, the Customs Inspector, and the Plant Quarantine Inspector. Sometimes it took the visitor, returning resident, or citizen a third as long as the flight across the ocean to pass all these barriers to gain admission to this country.

Today, 75 to 80 percent of travelers arriving at John F. Kennedy International Airport are cleared through Customs, Public Health, Plant Quarantine, and Immigration in less than 2 minutes by a single inspector, who is trained to do the job of all four agencies. All passengers and hand-carried luggage are inspected by the single inspector. The 20 to 25 percent of the travelers whose inspection cannot be completed by this one officer are referred to a secondary officer who is a specialist for one of the four agencies. It may be that the Public Health specialist has to make a further determination of the passenger's admissibility on medical grounds, or the Plant Quarantine specialist needs to determine whether fruit carried by a passenger should be confiscated, or a Customs specialist may be needed to assess the value of certain rare articles, or the Immigration specialist must resolve whether an alien is entitled to the visa he has presented. After installing this accelerated inspection system at John F. Kennedy and San Antonio International Airports in June of 1968, the System was successively extended during fiscal year 1969 to four additional airports and is gradually being extended to other large airports of entry.

Other significant steps have already been taken in smoothing the path of entry for international travelers. A number of years ago, preclearance procedures were instituted at five Canadian ports and in Nassau, Bahamas, and Hamilton, Bermuda. No further inspection is required to the traveler upon his arrival in the United States. In 1969, 2,557,088 air passengers were preinspected. Expansion of preclearance to other foreign places is one of the possibilities of the future in coping with vastly expanding international travel.

In recent times, the Service has contributed to the facilitation of international travel by adopting special

Immigrant Inspector performing Customs baggage inspection of a visitor arriving from Manila at Seattle-Tacoma Airport. The accelerated inspection system, which proved to be a success at John F. Kennedy and San Antonio International Airports, was extended to four additional airports in 1969.

procedures on an ad hoc basis for particular situations. Thus, while holders of Nonresident Mexican Border Crossing Cards were permitted to visit in Texas for no more than 3 days under regulations in effect in 1968, special regulations were promulgated to admit such persons for a period of up to 10 days so that they could visit the HemisFair 1968 in San Antonio during the 6 months of the Fair's existence. Similarly, regulations were placed in effect in connection with the Olympic games in Mexico City.

In the past and particularly in the year of this report, the Service has attempted to adjust to its responsibilities with flexibility and imagination. All manner of recommendations and suggestions have been submitted to us not only by our own employees but also by representatives of interested organizations such as the carriers who are, of course, enormously interested in insuring that their passengers will encounter a minimum of governmental requirements upon arrival in the United States. The Service shares this concern and supports any measure to facilitate inspection consistent with the administration of the immigration laws and protection of the public interest. Some future possibilities are: the electronic screening of the names of arriving passengers and crewmen to determine instantaneously whether any pertinent derogatory information exists;

or reciprocity among nations to eliminate visa requirements on a larger scale or to adopt international visas good for travel to any country; or the expansion of pre-clearance abroad to enable the great bulk of travelers, upon arrival in the United States, to simply gather their baggage and proceed to their destinations.

## Admissions

### Immigrants

In fiscal year 1969, 358,579 aliens were given status as lawful permanent residents of the United States, a decrease of 21 percent over 1968. Of that total, 319,791 obtained immigrant visas abroad and were admitted to the United States. The remaining 38,788 were already in the United States and adjusted their status to that of permanent resident. Of the total number of immigrants in fiscal year 1969, 157,306 were preference and nonpreference aliens, 127,346 were special immigrants born in independent Western Hemisphere countries and their spouses and children, 1,699 were other special immigrants, 60,016 were immediate relatives, and 12,212 were in other classes.

The parent of an adult U.S. citizen and the spouse or child of a U.S. citizen are classified as "immediate relative" when the Service approves a visa petition to accord the alien relative such status. The annual numerical limitations on the issuance of immigrant visas, generally applicable to Western and Eastern Hemisphere natives, do not apply to immediate relatives who thus are not required to wait for the allocation of visa numbers.

The classes under which immigrants were admitted are reflected in the table that follows.

**Numerical Limitations.** From 1921 when the first quota law was passed until July 1, 1968 when the Act of October 3, 1965 (Public Law 89-236) became fully effective, there were laws and prescribed formulas limiting the number of immigrants who could be admitted from every country except the independent countries of the Western Hemisphere. However, beginning on July 1, 1968, the prospective immigrant has been made aware that for immigration purposes, too, his world is divided into two parts, the Eastern and Western Hemispheres. With few exceptions, every immigrant, no matter where he is born, is subject to an annual numerical limitation on the number of immigrant visas which may be issued and must compete in the geographic hemisphere to which he belongs for a visa number.

A native of an independent country of the Western Hemisphere, with certain exceptions, is by law considered to be a special immigrant. No more than 120,000 visa numbers may be allocated to such natives and their spouses and children who accompany or follow to join them in any one fiscal year. As of July

### Immigrants Admitted: Years Ended June 30, 1968 and 1969

Class of admission	1969	1968
Total immigrants.....	358,579	454,448

V. Other immigrants not subject to numerical limitations.....	4,677	4,918
Aliens adjusted under sec. 244, I. & N. Act.....	46	64
Aliens adjusted under sec. 249, I. & N. Act.....	1,565	2,148
Other immigrants.....	3,066	2,706

<sup>1</sup> Includes 8,987 conditional entrants in 1969 and 5,800 in 1968 whose status does not become permanent until 2 years after entry.

<sup>2</sup> Includes 10 in 1969 and 12 in 1968 who adjusted under special legislation.

<sup>3</sup> Immigrants subject to the numerical limitations of the Western Hemisphere.

1969, 1 year after that numerical limitation took effect, so many persons had applied that a waiting list became necessary, and visas were being issued only to those who had established a priority date before October 8, 1968. Natives of Canada, Mexico, and other independent countries in the Western Hemisphere who, prior to July 1, 1968, had been admitted without regard to a numerical limit are finding it necessary now to wait for extensive periods before being issued immigrant visas. In 1969, there were 129,045 special immigrants admitted, a reduction of 17 percent from the 1968 figure of 155,308.

Exclusive of the independent countries of the Western Hemisphere, the rest of the world, including those areas of the world which have no independent status, are considered for visa allocation purposes as the Eastern Hemisphere. With some exceptions, e.g., immediate

1/ Numbers of visas issued and immigrants admitted will not necessarily agree. Differences may be caused by failure of aliens to make use of the visas issued or by immigrants who are admitted to the United States in the year following the one in which the visa was issued.

relatives of U.S. citizens, all Eastern Hemisphere natives must qualify for a preference in the allocation of visa numbers or be eligible for a nonpreference number when numbers in that category are available. (Not until the second half of fiscal year 1969 did nonpreference numbers become available in any significant quantity.) Prospective immigrants in the Eastern Hemisphere compete for one of 170,000 numbers annually.

Before December 1, 1965, there were four preferences; now there are seven. The first, second, fourth, and fifth preferences are allocated to specified relatives of citizens and lawful permanent residents of the United States. The third and sixth preferences are occupational preferences, while the seventh preference pertains to certain refugees.

During the year, we admitted to the United States 92,458 close relatives of citizens and permanent residents under the first, second, fourth, and fifth preferences; 9,677 persons who qualified as members of the professions or as persons with exceptional ability in the sciences or the arts and 6,536 spouses and children under the third preference; and 9,100 persons to fill jobs in the United States for which a shortage of

workers existed as certified by the Department of Labor and 6,450 spouses and children under the sixth preference.

Under the seventh preference, 8,987 refugees conditionally entered the United States. These conditional entrants are able to acquire status as permanent residents after they have resided here for 2 years. In addition, persons already in the United States for at least 2 years who were not admitted as conditional entrants but qualify as refugees are eligible to apply for adjustment to lawful resident status. In the year of this report, we adjusted status in 546 such cases. There were 23,169 immigrants who were admitted to the United States under the nonpreference category, the smallest number since enactment of Public Law 89-236.

**Characteristics of Immigrants of 1969.** Of the 358,579 immigrants counted in 1969, 38,788 were already in the United States and were adjusted to permanent status, and 319,791 entered as immigrants. Both these groups were additions to the permanent population of the United States. There were 165,472 males and 193,107 females, or 857 males for every 1,000 females. Of the males, 61,440 were under 20, 98,263 were 20 to 60 years old, and 5,769 were 60 and over.

# PREFERENCE AND NONPREFERENCE IMMIGRANTS ADMITTED \*

YEAR ENDING JUNE 30, 1969

EUROPE — 98,480

ASIA — 53,000

\*CHARGED TO THE COUNTRIES OF EUROPE AND ASIA WITHIN THE NUMERICAL LIMITATION OF THE EASTERN HEMISPHERE.

For the females, 64,383 were under 20, 120,149 were 20 to 60 years old, and 8,575 were over 60. Mexico had the largest proportion (52 percent) of immigrants under 20 years of age, as well as the largest number (23,412). The greatest number of oldsters, 60 years of age and over, came from Italy and China. This is not surprising, since they were also the countries from whence the most "parents of citizens" were admitted.

On the average, immigrants were about a year younger than those admitted in 1968.

Half the female immigrants were married, 4.2 percent were widowed or divorced, and 46 percent were single. For the males, 45.5 percent were married, 1.2 percent were widowed or divorced, and the remaining 53.3 percent were single.

Better than half (56.6 percent) of the 1969 immigrants did not report an occupation at entry. Most of these people were housewives and children under 14. Students and retired persons were in lesser numbers. Among those who reported an occupation, 11.3 percent were in the professional, technical, and kindred categories. The breakdown by continents shows some interesting differences; 24.5 percent of the professionals came from Europe, 44.0 percent from Asia, 4.6 percent from Africa, 1.1 percent from Oceania, 20.5 percent from North America, and 5.3 percent from South America. The country with the highest proportion of professionals was India with 48 percent of the 5,963 immigrants in the professional occupations. Of the 20,744 immigrants born in the Philippines, more than a third reported professional occupations.

White-collar workers, i.e., managers, salesmen, and clerical workers, comprised about 6 percent of immigrants admitted. Sixteen percent of the immigrants were blue-collar workers—craftsmen, operatives, and laborers except farm laborers. Craftsmen came principally from Greece, Italy, Portugal, Yugoslavia,

	Fiscal year	
	1969	1968

Males.....	25.2	26.2
Females.....	24.3	25.6

Mexico, the West Indies, Colombia, and Ecuador. Most of the operatives were from North America and Europe.

The current problems of American housewives in finding domestic help gives rise to some interest in the "private household workers." In 1969, 16,822 private household workers were admitted, of whom 2,951 were born in Europe (Portugal 756, Italy 535, Greece 310, the United Kingdom 300, Spain 171, and Yugoslavia 131); 1,254 were born in Asia, including 478 born in China, 317 in the Philippines. Most of the remainder, 12,534, were born in the Western Hemisphere countries of Mexico (2,056), Jamaica (4,495), Trinidad and Tobago (1,370), the Dominican Republic (913), Central America (1,151), and South America (1,235).

Until 1960, more newly arriving immigrants planned to establish residency in New York than in any other State. With the beginning of the decade, however, California emerged from a rather distant second choice to surpass New York. In 1964, the positions were again reversed and since that year more and more immigrants indicate New York is the State where they intend to reside. In 1969, for example, one of every four new immigrants planned to reside in New York, and 23,220 more of them planned to reside there than in California (94,403 vs. 71,183).

The predominant number of immigrants from southern Europe and the Caribbean planned to reside in New York: in 1969, 44 percent of all arriving Italian immigrants planned to reside there, as did 29 percent of the Greeks; 62 percent of the Jamaicans; 73 percent of the Dominicans; 79 percent of the Haitians; and 58 percent of the immigrants from Trinidad and Tobago. Also, in 1969, most immigrants from Mexico and Canada, and from the Far East chose to reside in California: one of every two Mexicans did so; 13 percent of the Canadians; 39 percent of the Filipinos; 36 percent of the Chinese; 18 percent of the Koreans; and 16 percent of the Indians. Twenty percent of all new Portuguese immigrants planned to reside in California, in keeping with the well established Portuguese population of that State.

**Cuban Refugees.** Cuban refugees arrived by airlift from Cuba to the United States at the rate of two flights a day, 5 days a week, except when weather conditions or other problems caused a temporary suspension. In fiscal year 1969, 41,751 Cuban refugees arrived. At the end of the year, more than 155,600 Cubans had found a haven in this country by means of the airlift, and the great majority of new arrivals was reunited with families already here.

Under Public Law 89-732, enacted November 2, 1966, Cubans who had been in the United States for 2 years or longer could have their status adjusted to that of permanent residents. From the passage of the Act to June 30, 1969, 123,615 Cubans had gained per-

Aged Cuban refugee is greeted by representatives of the Department of Health, Education, and Welfare and the National Catholic Welfare Conference. During the year, 41,751 Cuban refugees arrived by airlift.

manent status under this Act (6,343 in 1969). Most of the adjustments occurred in fiscal year 1968 when over 90,000 Cubans were converted to permanent status prior to the establishment of the Western Hemisphere numerical limitation. Only 6,343 attained permanent status under Public Law 89-732 in 1969.

#### Nonimmigrants

A person who comes to the United States for a temporary period is called a nonimmigrant. The following persons are all categorized as nonimmigrants; diplomats and their families, attendants, servants, and personal employees; visitors for business or pleasure; persons transiting the United States; crewmen on vessels or aircraft; treaty traders and treaty investors; students; four categories of representatives to international organizations and their attendants, servants, and personal employees; three types of temporary workers or trainees; foreign correspondents; and exchange visitors. Alien residents returning from temporary visits abroad, although they are immigrants, are

included statistically in the nonimmigrant count in order to keep the count of immigrants limited to those who are a new addition to the total population. Exclusive of citizens of Canada and Mexico who enter frequently as border crossers and exclusive of alien crewmen, a total of 3,645,328 nonimmigrants was admitted during the year, an increase of 14 percent over fiscal year 1968. Shown below are the classes under which nonimmigrants were admitted and a comparison with last year's figures.

Those persons who came to visit friends and relatives or came as tourists and who are classified as visitors for pleasure make up the largest group of nonimmigrants and numbered 2,382,198, an increase of 17 percent over the preceding year. Additionally, 299,810 persons were admitted temporarily as visitors for business. Mexico (689,957), Canada (318,974), the United Kingdom (195,877), and Germany (107,818) ranked highest in the number of visitors for pleasure. The greatest numbers of business visitors came from the United Kingdom (51,052), Japan (47,776), Germany (25,676), France (19,728), Mexico (13,812), Italy (12,637), Canada (10,650), and the Netherlands (10,243).

Foreign students entering to attend educational institutions numbered 90,486. They were accompanied by 8,302 spouses and children. Also, 47,175 exchange visitors to participate in Government- and privately-sponsored programs designed to further international cultural exchange were admitted, accompanied by 15,301 spouses and children. Students and exchange visitors from North America numbered 41,837, from Asia 37,095, and from Europe 30,539.

One of three groups of temporary workers or trainees relates to persons who are of distinguished merit

and ability, who wish to enter the United States to perform temporary services which require such distinguished merit and ability. Of the 8,941 such persons who were brought to the United States, 7,700 were in professional occupations. Other skilled and unskilled workers whose services were needed in the United States amounted to 49,913, of whom there were 7,514 in the professional or technical categories, 8,255 craftsmen, 13,800 farm laborers or foremen, and 10,564 carpenters' helpers, lumbermen, gardeners, and the like. Trainees are persons who are given training in various industries and in agriculture who are not able to obtain such training in their own countries, and who do not displace American workers. There were 4,098 such trainees.

Among the temporary workers who came to the United States during this reporting year were 12,818 agricultural workers from the Caribbean area and 10 from the British Virgin Islands; 9,740 Canadian agricultural workers and woodsmen; 391 sheepherders from Europe; 16,841 other workers destined to the U.S. Virgin Islands; and 318 destined to Guam from Korea and the Philippines.

Other nonimmigrants admitted included 44,940 foreign government officials, 19,956 official representatives to international organizations, 15,264 treaty traders and investors, 4,164 members of the foreign news media, and 3,155 NATO officials. Admitted were 210,543 travelers in transit through the United States to other countries. Almost 2,140,000 alien crewmen arrived at U.S. ports during the year and were granted shore leave.

#### Citizens and Resident Aliens Who Returned to the United States

The number of U.S. citizens who returned from a visit abroad rose from 92,086,163 in fiscal year 1968 to 96,145,919 this year. Of these, 89,603,348 were border crossers, 1,106,630 were crewmen, and the remaining 5,435,941 came back from countries other than Mexico and Canada. Lawful permanent residents returning from visits abroad via air and sea transportation were admitted back into the United States in the number of 441,082, which was an 18-percent increase over fiscal year 1968. The number of citizens arrived from abroad showed a 17-percent increase over last year. Largest percentage increases were 39 percent from Africa and 23 percent from the West Indies, principally, the Bahamas, Bermuda, and Jamaica.

#### Inadmissible Aliens

*Entries Denied.* One of our principal functions is to insure that aliens who have no right to enter the United States or whose entry would not be in our best interests do not, in fact, enter. The inspection of aliens is, therefore, designed to permit the entry as expeditiously as

# NONIMMIGRANTS ADMITTED

1965 - 1969

possible of all aliens who meet the qualifications set out by law, to establish time limits for control on the departure of those who have been admitted for a temporary period, and to turn back the aliens who do not qualify for entry. The Service prides itself on setting generous entry terms for admissible aliens and giving humane and considerate treatment to those who are asked to return to their own countries.

Entry was denied to 262,954 aliens in fiscal year 1969. Of this number, 17,924 were crewmen who were denied the privilege of landing. There were 185 stowaways found and detained on the vessels on which they arrived, 185,665 applied as border crossers, and 58,655 others withdrew their application for admission rather than face formal exclusion proceedings.

After being accorded a hearing by a special inquiry officer, 525 aliens were denied entry. Of these, 70 percent lacked documents required for the type of admission they sought. Fourteen were excluded on subversive grounds, 66 had criminal, immoral, or narcotic records, and eight were certified by the Public Health Service as being afflicted with mental or phys-

ical defects which rendered them inadmissible under the immigration laws.

**Waivers of Inadmissibility.** Congress has given to the Attorney General the authority to waive certain grounds of inadmissibility for permanent residence of alien spouses, parents, and children of lawful permanent residents or citizens of the United States when he finds that the alien's continued exclusion from the United States would result in extreme hardship to the lawful permanent resident or citizen of the United States and that the admission of such alien would not be contrary to the welfare, safety, or security of the United States. Approved were 1,212 such waivers in fiscal year 1969. Additionally, 6,236 waivers were granted to nonimmigrants whose admission was found to be in the public interest.

Aliens who have defected from Communism may be granted visas for entry into the United States if they can establish that they were actively opposed to that ideology for at least 5 years prior to their application for admission to the United States and if it can also be already shown that their admission would be in the

public interest. In fiscal year 1969, 77 such aliens were admitted after having been granted waivers of their inadmissibility by the Attorney General.

## ADJUDICATIONS

Determinations on petitions and applications for preference in visa classification, extensions of stay, change of status, waivers of certain grounds of inadmissibility, and other aspects of the immigration laws are the responsibility of the adjudications personnel in Travel Control. The adjudicator's task is not an easy one. He must make judgments which have a far-reaching effect upon the lives of aliens. For example, he must determine whether families will be reunited or remain separated or judge whether exceptional hardship to a U.S. citizen or lawful resident alien can be alleviated. He must determine whether an inadmissible alien may be permitted to enter for urgent personal reasons or whether an alien in the United States may continue his stay in this country either temporarily or permanently.

For the third straight year, there were more than 1 million receipts, 1,247,841, a number that exceeded fiscal year 1968 by 8 percent. What a difference 10 years make. In 1960, total receipts of adjudications amounted to 696,721. Ten years later, this figure almost doubled, but the officer force adjudicating this expanded workload today is somewhat lower than that of 10 years ago. In addition, the quality of Service adjudications has steadily improved. Today the public can see more of how and why cases are decided than ever before. Decisions are based entirely on the evidence in the record. Denial decisions spell out precisely the grounds on which they are based in language easily understood by laymen and especially by persons who are not at home with the English language. More precedent decisions have been published than ever before in our history. Regulations are fuller and more explicit than ever before.

## Adjustment of Status

**Cuban Adjustments.** Since the Cuban revolution a little more than 10 years ago, Cubans have sought refuge in the United States. These refugees were paroled into the United States which meant that while they could stay here, they had no recognized immigration status. It is true that in the beginning most Cubans hoped and confidently expected they would soon be going home again.

As the years passed this hope faded. Their children went to American schools and adopted the American way of life as their own. The parents and breadwinners wanted to earn their own way, and many were qualified to make real contributions to our society. But in order to get the jobs they could splendidly fill, they

often found that they needed to be permanent residents or citizens of the United States. As parolees, they could not be either.

The Congress, recognizing the situation and wanting to help the refugees become self-sufficient, enacted Public Law 89-732. This law, effective November 2, 1966, made it possible for qualified Cuban refugees to become permanent residents of the United States. By November 14, 1966, we began to distribute application forms to eligible Cubans, and, at the end of fiscal year 1967, 41,052 applications had been filed and 25,693 applications adjudicated. Last year, 82,477 applications were received and 95,679 adjudicated. In fiscal year 1969, receipts were only 23,451, and of these only 7,306 were adjudicated.

There are several reasons for this decline of 72 percent in receipts and 92 percent in adjudications completed. In May and June of 1968, many eligible Cubans filed their applications to avoid the effect of the numerical limitation imposed on Western Hemisphere natives beginning July 1, 1968. Secondly, at the time of enactment of Public Law 89-732, more than 125,000 Cubans were eligible to apply to become permanent residents, because they had resided in the United States for 2 years or longer. From fiscal year 1969 on, it is estimated the number of eligibles will be no more than 40,000, since that is the approximate number of Cuban refugees being paroled into the United States each year. Additionally, the numerical limitation alluded to has obliged the Cuban refugees to compete with other Western Hemisphere natives for the 120,000 visa numbers allocated annually under the Immigration and Nationality Act, as amended, to such natives.

Public Law 89-732 also provided that Cuban refugees who had gone abroad, obtained immigrant visas, and reentered as immigrants might have the date of their admission as immigrants backdated not to exceed 30 months before the date of the law. This was a privilege sought mostly by professionals who needed this benefit in order to become eligible more quickly for citizenship so that they could practice their professions in those States which required U.S. citizenship as a prerequisite to practice. In 1969, 1,847 Cubans took advantage of this provision of the Act compared with 1,350 the prior year.

**Section 245.** In the days before the Immigration and Nationality Act of December 24, 1952 came into being, an alien could not become a permanent resident of the United States unless he applied for and obtained from an American consular officer abroad an immigrant visa. Section 245 of the Act authorizes adjustment of status to that of a permanent resident in the case of an alien in the United States without requiring him to obtain a visa from a consular officer. Section 245 has undergone several changes since 1952. Today three requirements must be met before an alien

in the United States may become a permanent resident: he must make application for such status; he must be eligible to receive an immigrant visa and must be admissible to the United States for permanent residence; and an immigrant visa number must be immediately available to him at the time his application is approved. The Act expressly precludes from this privilege of adjustment of status natives of any country of the Western Hemisphere or of any adjacent island and crewmen.

In fiscal years 1966, 1967, and 1968, Public Law 89-236 allowed the use of quota numbers which had not been issued in each of the prior fiscal years. Since, prior to Public Law 89-236, as many as 80,000 numbers a year had gone unused, the greater availability of visa numbers made it possible for nonimmigrants in the United States to qualify for assignment of visa numbers as preference or nonpreference immigrants and subsequently to apply for adjustment. Consequently, there were 52,714 applicants in fiscal year 1966, 36,381 in 1967, 35,276 in 1968, and 41,683 in 1969. Compared with the receipt of 22,814 adjustment applications under section 245 in 1965, the last full year prior to the enactment of Public Law 89-236, the effect of the new law comes into sharp focus.

**Other Adjustments.** The Joint Resolution of July 14, 1960 provided that refugee-escapees who had been paroled into and remained in the United States for 2 years could become permanent residents of the United States if found admissible under the immigration laws. In fiscal year 1969, 985 refugee-escapees were found admissible and were accorded permanent resident status. Since passage of the Joint Resolution, a total of 19,694 refugee-escapees have become permanent residents.

Section 13 of the Act of September 11, 1957 provides that persons who had been admitted as diplomats or international representatives and who are not maintaining that status may be accorded permanent resident status. While 50 such adjustments per year are permitted, only 20 former officials of foreign governments or of international organizations and members of their families were adjusted under this provision of law during the fiscal year.

## Visa Petitions

The visa petition or a procedure similar to it, as the vehicle by which a person is accorded a classification under the immigration laws for the purpose of obtaining a certain nonimmigrant or immigrant visa, has been in effect since the Act of February 5, 1917 (fourth proviso to section 3) when the Congress gave the Attorney General the authority to determine if an alien could be brought to the United States to perform skilled labor. Section 9 of the Act of May 26, 1924

broadened the use of the visa petition to accord classification to aliens as relatives who thus became eligible to obtain either nonquota or quota immigration visas. Again the Immigration and Nationality Act of 1952 broadened and refined the visa petition procedure by expanding the preference categories.

Public Law 89-236 abolished the term "nonquota" and substituted the equivalent status of "immediate relative" which includes the spouses, minor unmarried children of United States citizens (including adopted or to be adopted children), and parents of adult United States citizens. Aliens who are accorded "immediate relative" classification are not subject to the annual numerical limitation on immigration. In addition, Congress intended that any person who could qualify as an immediate relative must do so. Thus, such persons, not having to obtain visa numbers, would not eat into the authorized number of immigrant visas. This came fully into play on and after July 1, 1968, when special immigrants were limited to 120,000 numbers annually. The necessity to qualify aliens as immediate relatives when possible, resulted in a large increase of immediate relative petitions. During the year, 75,308 immediate relative petitions, including 2,178 orphan petitions, were approved as against 49,337 immediate relative petitions, of which 1,699 were orphans, approved in the previous year. Service offices abroad adjudicated 962 of the orphan petitions.

Under the Act of October 3, 1965, there were four preferences established for relatives of United States citizens and resident aliens. The first preference category is reserved for unmarried sons and daughters of United States citizens, and, in fiscal year 1969, 1,781 petitions were approved to accord this status as contrasted with 1,822 approved petitions in 1968. Spouses and unmarried sons and daughters of aliens lawfully admitted for permanent residence are accorded second preference. A total of 30,222 such petitions was approved as against 25,411 approved a year ago. Married sons and daughters are now entitled to fourth preference status, and the fifth preference classification is for brothers and sisters of citizens. Petitions approved in these categories totalled 24,696 during the year.

The third preference category is for members of the professions and persons of exceptional ability in the sciences or arts. It is the only category in which the petition may be filed by the prospective immigrant himself or by a person in his behalf. A total of 34,570 such petitions was approved and 2,520 denied. Only 17,000 visa numbers are available worldwide for aliens who have third preference classification. The demand for one of these numbers is such that even in those months of fiscal year 1969 when allocation of visa numbers was current for most categories in a good part of the world, the third preference category remained oversubscribed.

The sixth preference category for aliens who qualify as skilled or unskilled workers in occupations for which workers in the United States are in short supply showed a decrease of 40 percent in approved petitions in fiscal year 1969 from the number approved in 1968. Reduction in the issuance of Labor Department certifications concerning availability of workers may have been a factor in this decline.

Section 203(a) (7) of the Act provides that 10,200 visa numbers annually may be assigned to refugees. It also provides that up to 5,100 of these numbers may be used in adjusting the status of aliens who have been continuously physically present here for 2 years and who qualify as refugees. For the first time since the Act became effective, fiscal year 1969 saw the number of refugees abroad who sought entry into the United States under this section exceed the visas available. This situation arose primarily because the Soviet invasion of Czechoslovakia led several thousand nationals of that country to flee mainly into Austria and Germany, where they sought classification as refugees. The number of applications for classification as refugees from persons in the United States continued to decline as only 654 were received in 1969.

Petitions filed by employers in the United States to import for temporary periods aliens of distinguished merit and ability, workers in short supply in the United States, and industrial trainees totalled 22,133 in fiscal year 1969 as compared to 18,654 received the previous year. There were 20,522 approved and 862 denied. Many cases involved consultation with other Government agencies and representatives of labor and management. The statute requires in the cases of temporary workers that the work they perform, in and of itself, be temporary in nature. In 1969, when Western Hemisphere natives came under the annual limitation of 120,000 visa numbers and immigrant visas were no longer immediately available to them, petitions for temporary workers increased. The most difficult question to resolve in these cases is whether the work, in and of itself, is temporary in nature.

### **Other Applications**

During the year, 390,696 applications by nonimmigrants to extend their temporary stay in the United States were adjudicated as compared to 340,707 last year, an increase of 15 percent. This is an area where increases may continue to be anticipated so long as tourism remains on the rise. There were 206,267 alien border crossing cards issued to residents of Canada and Mexico who enter the United States frequently. Some 19,766 nonimmigrants in the United States were permitted to change to other nonimmigrant classes. As has been true in the past, the bulk of the requests for change involved visitors for pleasure who decided after entry

that they wished to continue their education in American schools.

No school may enroll nonimmigrant students unless authorized to do so by the Service. Nonimmigrant students and exchange visitors must receive permission from the Service to transfer from one school or exchange program to another or, in the case of students, to accept part-time employment. During the year, 59,774 applications were approved in these categories, an increase of 14 percent over 1968.

Some U.S. citizens have need to frequently cross our land borders. To facilitate their reentry into the United States, they were issued 11,969 certificates of identity. Permanent resident aliens often require reentry permits or extension of reentry permits, or duplicate alien registration cards, and, in fiscal year 1969, 131,012 applications for such documents were acted upon as compared to 116,843 a year ago. Deported aliens granted permission to reapply for admission to the United States numbered 3,159. In addition, permission to return to the United States was granted to 184 resident aliens who had departed but who otherwise would have been ineligible to reenter.

Aliens admitted to the United States to participate in exchange programs must depart from the United States and reside for 2 years in the country of their nationality or last residence or, under certain circumstances, in another foreign country before they can apply for immigrant visas or become permanent residents. This foreign residence requirement may be waived only if it is established that compliance with the requirement would cause exceptional hardship to the alien's U.S. citizen or lawfully resident alien spouse or child. It may also be waived upon formal request of an interested U.S. Government agency. In each case, the Secretary of State must recommend whether the waiver should be granted or denied, and the Attorney General must then make the final decision as to the waiver. Granted during the year were 1,818 such waivers out of a total of 2,466 applications received by the Service. Also in 1969, regulations were issued establishing the right of an applicant whose application for waiver had been denied by a district director to appeal that decision to the appropriate regional commissioner.

### **Service Operations Outside the United States**

Service officers stationed abroad continued to adjudicate applications and petitions filed by U.S. citizens and permanent resident aliens who are abroad. They worked closely with U.S. consuls in matters involving functions of the Service and the consuls. The Service, like other Government agencies with employees stationed abroad, reduced the number of its personnel stationed in foreign countries in order to help improve

the balance-of-payments situation. At the same time, as a service to intending immigrants, consular officers were authorized to adjudicate relative petitions filed by persons abroad in countries where no Service officers were stationed.

## Domestic Control

Domestic Control operates as the enforcement arm of the Service through coordinated action of its two divisions, the Border Patrol in uniform and Investigations in plain clothes. Fiscal year 1969 saw an increase in every phase of this work. More aliens were located who had breached the borders or violated their status after admission than at any time since 1954.

Smuggling cases were encountered in increasing numbers, both by the Border Patrol and Investigations Divisions. Most of the increase was in the Southwest Region. This resulted primarily from the imposition of the numerical limitations on Western Hemisphere immigration, more stringent labor certification requirements, and the vast difference in economy and job opportunities between Mexico and the United States.

Liaison with other law enforcement officers gave an assist to the Service in some 17,000 cases. At the same time Border Patrol officers uncovered some spectacular and wily methods for importing drugs and turned the perpetrators of these attempts over to Customs officers.

Frauds of many kinds, some old and some inspired by changes in the laws, were a major problem in 1969. "Sham" marriages, false birth certificates, false petitions for relative status, and false labor certifications were some of the means used to attain an immigration status.

To combat these and other types of violations, the Service maintains various systems for discovering persons who scheme to circumvent the immigration and nationality laws. The Caribbean Index was an effective instrument in identifying and thus preventing the entry of Latin Americans known to be in criminal, immoral, narcotic, or subversive classes. Suspected documents, such as birth or baptismal certificates, can be checked on a 24-hour-a-day basis by communication with our Fraudulent Document Center, a repository for information concerning the use of counterfeit or altered documents or misuse of genuine documents by imposters. On both the northern and southern borders, records are maintained on known alien criminals, racketeers, and subversives who live on the other side of the border. Through use of these data, the entry of such persons has effectively been prevented.

There are many incidents of accomplishments during the year, but the fact that 10,505 aliens were deported and 240,958 required to depart is probably one of the most solid proofs of work accomplished.

## DEPORTABLE ALIENS LOCATED

During fiscal year 1969, Service officers located 283,557 deportable aliens. This is an increase of 71,500 or 34 percent over fiscal year 1968, attributable, in the most part, to the increase of 49,931 in the number of Mexican aliens located and the increase of 15,767 in the number of nonwillful crewman violators. Of the total, 201,636 or 71 percent were Mexican nationals. This number is a 33-percent increase over the number of Mexicans located last year. Similar increases are noted for most all of the other nationalities as well, with increases in the number of Greeks and Chinese attributable mainly to the increase in the number reported as nonwillful crewman violators. The following table reflects a comparison of the violators by nationality groups for 1968 and 1969:

Nationality	Fiscal years		Percent change
	1968	1969	
Mexican.....	151,705	201,636	+33
Cuban.....	591	1,657	+180
Canadian.....	11,056	12,753	+15
Dominican.....	2,101	2,134	+2
BWI and British Honduras.....	2,541	3,053	+20
Other Western Hemisphere.....	10,953	13,035	+19
Chinese.....	5,900	7,678	+30
Philippine.....	3,121	4,502	+44
Greek.....	3,261	6,043	+85
Italian.....	2,915	2,733	-6
United Kingdom.....	1,926	3,281	+70
All others.....	15,987	25,052	+57
Total aliens found.....	212,057	283,557	+34

**Status at Entry.** Of the 283,557 violators of the immigration laws found, 167,174 or 59 percent were aliens who entered illegally at other than ports of inspection. The remaining 41 percent (116,383) had come in at designated ports of entry and were later found deportable for violation of the conditions of admission, remaining longer than authorized, securing entry by fraud, or conviction for crime involving moral turpitude, etc.

The illegal entries of Mexican aliens accounted for 96.7 percent of all surreptitious entries. Most of the remaining 3.3 percent who entered without inspection were from other countries of the Western Hemisphere.

The number of deportable adult male Mexican aliens found was 179,196, an increase of 46,172 or 35 percent from the previous year. Of this total, 121,743 or 68 percent were apprehended by the 10 border sectors in the southwest. This compares to 81 percent in 1966 and is indicative of the continuing trend for large numbers of Mexican aliens to move away from the border areas in search of employment.

The 116,383 aliens found deportable after entry includes those who had been admitted as immigrants (2,420), visitors (63,152), students (5,712), crewmen (29,837), temporary workers in agriculture (738), as well as 14,524 others.

Yuma Border Patrol officers apprehending aliens on the bank of the All-American Canal, one of the natural barriers in the Andrade, Calif. area.

Throughout the year, there was a mounting influx of aliens illegally seeking employment, however brief, menial, or poorly paid. In order to escape detection for as long as possible, these aliens sought to reach interior destinations by various means including public transportation, rented vehicles, cooperatively purchased cheap cars, and, in many instances, by paying exorbitant fees to unscrupulous smugglers and transporters. Accordingly, steps were taken to increase our traffic checks and those at transportation terminals

in order to intercept the violators and reduce to the minimum the adverse effect that their employment would have created on the wages and working conditions of American labor. Of the 258,472 aliens (other than technical crewman violators) found in illegal status, 164,746 or 64 percent were located within 30 days, and of the remaining 93,726 or 36 percent who had been here more than 30 days, only 13,791 or 5 percent had been here more than 1 year before they were located. A total of 105,282 were in travel status at time of apprehension, an increase of 34,075 or 48 percent over last year. There were 54,532 persons found employed in agriculture (53,684 Mexicans) and 66,189 in industry or other fields.

**Smuggling.** Border Patrol officers located 11,784 aliens who had been induced or assisted to enter unlawfully or who had been transported unlawfully after entry. This represents a 77-percent increase over the number of smuggled aliens found in 1968. Alien smugglers and violators of statutes relating to unlawful transportation of aliens numbered 2,048, an increase of 69 percent over the 1,210 violators apprehended in 1968.

The 2,048 smugglers located in the year represent the highest number reported since the Border Patrol was established in 1924. The previous highs were recorded in fiscal years 1953 and 1954 when the official figures were 1,540 and 1,822, respectively.

## DEPORTABLE ALIENS FOUND IN THE UNITED STATES

1965 - 1969

Smuggling cases were encountered in increasing numbers in all sections of the country, but the volume in the Southwest Region remained the most important factor in the significant rises in the national totals. The present magnitude of the alien smuggling problem in the Southwest Region compared to recent years is shown in the table below.

The table also illustrates that the number of principals located in 1969 is four times greater, and the number of smuggled aliens located is seven times greater than in 1965.

Service investigators completed 1,386 smuggling investigations during the year. Prosecution was authorized against 815 violators of the smuggling statutes. There were 563 convictions resulting in aggregate sentences of 7,447 months and fines totaling \$43,000. Imposition of sentence was suspended on 88 convictions, and, in those cases where sentence was imposed, over 57 percent of the time to serve was suspended resulting in a 6.6 months' net average sentence to serve for each violation. The payment of \$8,500 of the fines was suspended.

The San Antonio District handled one of the largest and most notorious alien smuggling cases developed in recent years, involving 46 aliens smuggled into the United States near Eagle Pass, Tex., destined to Chicago, Ill. They were conveyed from the border to San Antonio in an enclosed rented truck which meas-

ured 7 x 12 feet. As a result of being locked in the truck, three of the aliens died from heat and lack of oxygen and many more were hospitalized. The case received a great deal of publicity, both national and international, and created public comment and indignation.

Late in the afternoon on September 30, 1968, San Antonio police officers found the 46 aliens at a rented house in San Antonio. No one except the aliens was present. The aliens were unable to identify anyone and did not even know where they were. The only person they had seen was the man who collected money from them after they entered the truck in the brush on the bank of the Rio Grande, and they were not sure they could identify him. Through various investigative techniques, such as comparison of handwriting, latent fingerprints, photographs, and interviews, three suspects were identified.

The investigation was long, tedious, and quite complicated. All suspects refused to be interviewed or even to appear with their attorneys before complaints were filed, and they refused to furnish any information afterwards. However, when they appeared in court in the Del Rio Division of the Western District of Texas, U.S. District Court, all three defendants pleaded guilty for violation of 8 U.S.C. 1324. John T. Eguia, leader of the large smuggling operation, was given two 15-year sentences, to be served concurrently; Carlos Becerra received two 10-year sentences to be served concurrently; and Joe Roy Campos received 10 years to serve.

Through arrangements with the Mexican consul, 23 of the aliens were delivered to the custody of Mexican officials at Piedras Negras, Mexico. As a result of their identification and testimony, the smuggler from Piedras Negras, who had been cooperating with the smugglers from the United States, was tried in Mexico and received a sentence of 3 years and 3 months to serve.

Smugglers and Smuggled Aliens Located in Southwest Region

	Fiscal years				
	1969	1968	1967	1966	1965

Smuggled aliens.....	+76	+18	+52	+122	—

Ingenious method devised to smuggle aliens into the United States not clever enough to elude detection. Special compartment strapped onto undercarriage of car. Picture at right illustrates how alien concealed himself in the compartment.

Early in 1968, the Border Patrol sectors in Del Rio, McAllen, and Laredo developed information which indicated that a large group of persons residing in the Dilley, Tex., area were involved in smuggling operations, moving large groups of aliens at a time. The smugglers were transporting the aliens into the Chicago, Ill., area for a fee of \$200 per person. On October 1, 1968, Border Patrol officers at Hebbronville, Tex., stopped two camper-equipped trucks and upon inspection ascertained that they contained 32 smuggled Mexican aliens who were destined to Chicago. Intensive efforts, both by the Patrol officers and investigators, developed evidence against 13 members of this group which was used in the prosecution and conviction in all cases. This group owned and used 22 trucks and cars in their operations.

A lengthy investigation at Miami, Fla., led to a Federal grand jury indictment on April 23, 1969, on four counts charging Verent Thompson, a U.S. citizen, with transporting aliens who were illegally in the United States, shielding aliens from detection, and falsely representing himself to be an agent of the Service. He is a part-time lay preacher, but his main occupation is that of a labor contractor, furnishing laborers to pick citrus in the Indian River citrus area. Thompson also operates a rooming house and restaurant to house and feed the laborers. Investigations revealed that the indicted person would go to various labor camps operated by the U.S. Sugar Corp. and the Florida Fruit & Vegetable Association to house British West Indian agricultural laborers brought to the United States under contract to these two companies. For fees ranging from \$20 to \$50 per man, he would offer to secure employment for the laborers at jobs which would be in violation of the terms of their admission. He then transported these persons from the Lake Okeechobee area to Fort Pierce, Fla., where he placed them in citrus harvest. The investigation revealed that he was engaged in a rather lucrative business, he would collect for transporting aliens, profit from the room and board he furnished them, plus collect a fee for each box of fruit picked by the aliens. On June 10, 1969, in the U.S. District Court, Miami, he entered pleas of not guilty to the four counts. (Thompson pleaded guilty at his trial and, on October 29, 1969, was fined \$1,000 and placed on probation for 3 years.)

**Deserting Crewmen and Stowaways.** The Service is constantly reviewing, evaluating and revising present programs and initiating new programs to prevent the illegal entry of deserting crewmen and stowaways. Close cooperation with shipping agents, law enforcement agencies, and waterfront contacts contributes significantly to the coastal control operation.

The following are typical cases in point:

In January 1969, four Greek crewmen deserted from the Liberian SS *World Explorer* at Norfolk, Va. In-

Ship's captain welcomes Investigators aboard at San Francisco. He expresses hopes that the investigation will discourage other deserters.

vestigators developed information which indicated they were en route by air to New York in the company of an unknown person. This information enabled an immigrant inspector at the John F. Kennedy Airport to apprehend the four as they disembarked from the plane. Their companion was a previous deserter who was also apprehended.

On May 29, 1969, the San Juan office received information that 14 stowaways were concealed in a trailer container aboard the MV *Rio Haina*, a ship operated by Sealand Corp. plying between Rio Haina, Dominican Republic, and San Juan, Puerto Rico. The 14 stowaways were located on the main deck of the vessel when it docked at San Juan. They had secreted themselves in a trailer container before it was loaded aboard ship and, after the ship had gotten underway, had cut a hole in the side of the trailer to get out, since it was impossible to open the trailer doors from the inside. The 14 stowaways were assisted in secreting themselves in the container by an unknown person identified only as Jesus. The publicity generated by this incident had far-reaching results in that all 14 stowaways were fined upon their return to the Dominican Republic for leaving the country without an exit permit. The representative of the Dominican Republic Customs assigned to the Sealand operation at Rio Haina was removed from office, since it was his responsibility to see that the trailers were searched before being loaded aboard ship.

Some deserters go to extremes to prevent apprehension. In November 1968, a team of investigators encountered three Chinese working at a nursery in Sunnyvale, Calif., who ran in opposite directions when the officers approached them. Two were apprehended after a short chase, and, when questioned, it was ascertained that they were deserters. These two were placed in the custody of the local police. The investigators

returned to the area of the nursery and by cutting sign determined that the third person had entered a storm drain. One investigator handed the other down into the drain system, and, after a pursuit that covered about 1½ miles under the city of Sunnyvale, the fleeing deserter was apprehended.

The Border Patrol officers of the Ogdensburg Sector continue their successful control of crewmen at the St. Lawrence Seaway. The surveillance of suspect vessels and checks of detained crewmen, coupled with the excellent cooperation of the seaway personnel, resulted in the season closing with no desertions reported. The Messina Unit verified the departure of 549 detained crewmen and maintained surveillance on 211 vessels, including 121 vessels operated by Iron Curtain countries which passed through the seaway locks.

**Air Operations.** The Service continues to maintain a fleet of 21 observation aircraft and three large transport aircraft. The entire Service observation aircraft fleet is deployed along the Mexican border in the Southwest Region, and the transport fleet is based at El Paso. During the year, the 21 observation aircraft were instrumental in locating a total of 16,576 deportable aliens. The above figure represents a 37.1-percent increase in the total number of aliens located as a result of air operations.

In addition to the normal functions of patrolling the borders and farm and ranch check, Border Patrol observation aircraft have sometimes figured in public services under unusual circumstances. As an example, Border Patrol pilots detected a burglar on Padre Island and led Sheriff's deputies to his hiding place through use of the loudspeakers mounted on the airplane.

Modification of two Service transport aircraft increased the seating capacity from 170 to 191 passengers for the three such Service aircraft. In order to maintain pace with the transportation needs brought about

by the increased incidence of deportable aliens located in northern California and Arizona, emphasis was placed on the use of the transport aircraft for the movement of those aliens to border staging areas. It was in fact possible to meet these needs with 825 fewer flight hours due to the increased seating capacity of the two aircraft and the shorter trip mileage required. During the year, a total of 23,844,046 passenger miles were flown of which 59,038 were flown for other Government agencies.

With the concurrence of the Mexican Government, a total of 112,398 deportable Mexican aliens were returned to the interior of Mexico during fiscal year 1969; 109,640 by bus and train from various border points to the interior of Mexico, and 2,758 by contract airlift from Matamoros, Tamaulipas, Mexico, to Leon, Gto., Mexico. This airlift was replaced by a buslift in April 1969.

The utilization of additional points of departure along the Mexican border made it possible to eliminate much of the expensive and awkward lateral movement heretofore involved in assembling deportable aliens at more widely dispersed staging areas. Additional savings were effected as the result of reduced detention time, particularly at interior points where it is not possible to detain deportable aliens in Service operated facilities pending their removal to border staging areas.

A logistics problem was simplified, with resultant increase in efficiency and economy, by the concentration of heavy aircraft on shorter haul transport of aliens from interior points, where they are taken into custody, to more conveniently located border staging points. Fiscal year 1969 saw an increase of 26,094 deportable Mexican aliens removed by contract bus and train over those removed the previous year. The impact of the improved removal program is obvious.

Since the inception of the various removal programs in 1956, a total of 104,722 deportable Mexican aliens has been returned to the interior of Mexico by airlift and 352,906 by the trainlift and various buslifts.

**Cooperation with Other Law Enforcement Agencies.** The Service has continued to emphasize liaison throughout the year with Federal, State, local, and foreign law enforcement agencies. Field supervisors throughout the country have instructed at various police schools and academies and have carried on personal contacts to explain the mission of the Service and describe the problems and violations of law which are of primary interest to the Service. Field visits and courses of instruction in border control and immigration enforcement techniques have been carried out by the Service for law enforcement officials from foreign countries in cooperation with the Agency for International Development.

Investigators and other Service officers at the seat of government worked closely during the year with other law enforcement agencies in matters of mutual

Patrol Inspector verifying the presence of two crewmen detained on board a foreign ship. Officers periodically check the vessels to confirm that detained crewmen have not absconded.

interest; specifically, with the office of the American representative to Interpol and with the Royal Canadian Mounted Police in matters relating to aliens engaged in international crime, with the Department of State in passport and visa fraud, with the Department of Labor in the field of labor certification frauds, with the U.S. Secret Service in matters affecting the protection of the President, and with the Federal Bureau of Investigation in matters of mutual concern.

Tangible results from liaison activity are reflected by the 17,724 violators of immigration and nationality laws who were encountered by other law enforcement agencies and referred to Border Patrol officers. An example of this cooperation occurred in the Nogales area when an electronic intrusion device showed a large number of persons had passed. The alarm for this device is triggered in the local police department which in turn notifies the Border Patrol by radio. Due to the great volume of beeps, not only was the Border Patrol notified, but the police sent several units to assist. Without the unsolicited and timely help of the police, it is doubtful if the two patrol inspectors who responded to the call could have controlled and apprehended the group of 28 aliens without some escaping.

Another incident involved the San Diego Harbor Police who became suspicious when they observed a person lead three Mexican nationals to seats at widely separated locations in the international airport. They alerted the Border Patrol who arrested all four of the individuals after the principal had regrouped them and led them to the boarding gate of a northbound airliner in an attempt to smuggle them into the interior of the United States.

Incident to the performance of their regular duties, Border Patrol officers arrested and released to appropriate agencies 1,178 violators of other laws, including 280 narcotics law violators. In line with the increased illegal traffic in narcotics and dangerous drugs, the Border Patrol seized over \$1.2 million worth of marijuana, narcotics, and dangerous drugs. This included over 12,500 pounds of marijuana. An additional \$475,187 worth of merchandise and property was seized.

Some typical cases of the seizure of narcotics and dangerous drugs which often involved armed violators are as follows:

On February 10, 1969, two patrol inspectors pursued and captured two Mexican citizens in a camper pickup after they had crashed through the international boundary fence west of Nogales, Ariz. Over 1,200 pounds of marijuana, largest single cache of marijuana ever seized in this area, was found in the camper and turned over to the U.S. Customs Agency Service. The occupants were turned over to Customs for prosecution.

On February 25, 1969, a Border Patrol observation pilot and a patrol inspector in a scout vehicle initiated nearly simultaneous radio alerts concerning the illegal

entry of a low-flying Twin Cessna airplane across the Imperial Desert of California. Although the Border Patrol plane was too slow to pursue the unidentified aircraft, the pilot determined that it was on an approximate course to Indio, Calif. He alerted the Indio Border Patrol Station as well as the Federal Aviation Agency and the aircraft was subsequently intercepted by patrol inspectors at an airport near Indio. One occupant of the airplane was captured as he tried to elude capture on foot. The pilot, who had remained in the aircraft, eluded the patrol officers and took off. Knowing the aircraft to be low on fuel, the patrol officers scouted out likely abandoned airstrips in the area. They found over 800 pounds of marijuana at an airstrip in the desert. Working closely with alerted agents of the Federal Aviation Agency and U.S. Customs Agency Service the pilot and aircraft were located along with several other individuals involved in the smuggling attempt. Customs took over the investigation for narcotic smuggling violations.

On June 20, 1969, patrol inspectors while observing traffic near Oceanside, Calif., noticed a car hanging very low in the rear. Upon pursuing and stopping the vehicle, seven cardboard boxes containing over \$13,000 worth of dangerous drugs were found in the trunk. The drugs which had been smuggled into the United States from Mexico were turned over to the U.S. Customs Agency Service. The occupants were turned over to Customs for prosecution.

Patrol inspectors also played key roles in other types of criminal cases. Upon receiving notice on March 24, 1969, that the Ferndale Branch of the Bellingham National Bank had been robbed of over \$9,000, patrol inspectors went to an area where an abandoned car had been found in February after a previous robbery of the same bank. They found a suspect car and upon searching the area found a campsite nearby. Other law enforcement officers surrounded the area and after an all night vigil, the patrol inspectors were alerted by a barking dog at a nearby farmhouse. With the owner's permission, the patrol inspectors searched the outbuildings and found the suspects who were armed with a rifle and revolver, in a shed. They were turned over to the Federal Bureau of Investigation and a complaint was filed with the U.S. Commissioner on the charge of bank robbery.

In May 1969, a patrol inspector at Fort Fairfield, Maine, noticed two persons acting very suspiciously at the scene of a fire. He passed this information to the local police and, while keeping the suspects under surveillance, observed another fire at an implement company. He entered the building, but was unable to extinguish the flame. The two suspects were located by the local police and after being confronted with evidence observed by the patrol inspector in the burning building admitted setting fire to the two buildings.

This episode ended a series of unexplained fires suspected of being set by an arsonist.

In the best traditions of the Service, officers have assisted persons in time of need while both on and off duty. Examples are:

A patrol inspector at Jackman, Maine, while off duty, responded to the request of out-of-State hunters by escorting a doctor through heavy snow to an isolated area to render medical assistance to a hunter with a serious back injury. He then organized an evacuation party and assisted in moving the injured man to a hospital.

In April 1969, Border Patrolmen responded to the call for assistance from the Imperial County Sheriff's Department to help find a 6-year-old girl lost in the desert. After a 9-hour search, the child was found unharmed, by experienced Border Patrol trackers. Approximately 10 patrol inspectors participated in the search while off duty.

***Encounters With Armed Law Violators and Aliens Apprehended With Prior Records of Criminal and Immigration Law Violations.*** The number of encounters with armed and dangerous violators of the immigration and nationality laws as well as violators of Federal, State, and local laws has continued to increase. During the year, 51,756 aliens with prior violations of immigration laws were taken into custody by the Border Patrol. Of the aliens taken into custody, 4,184 had prior criminal records. There were 75 persons arrested who were in possession of revolvers or pistols, 12 with rifles and shotguns, and 15 with daggers and switch-blade knives.

The following are typical cases of encounters with armed aliens and citizens who were in violation of Federal or State laws:

On October 17, 1968, a patrol inspector from Chula Vista, Calif., while conducting still watch on the border, was overpowered by two U.S. citizens as one of the men drew a gun on the patrol inspector and handcuffed him to a telephone power pole. Approximately 1 hour later, these men were apprehended by other patrol inspectors and placed under arrest. They had over 30 kilos of marijuana.

On October 31, 1968, investigators of the New York office, following assigned leads, located two persons in a rooming house in New York City. Investigation developed both were aliens illegally in the country, having deserted ships at U.S. ports. One of the aliens when opening a briefcase grasped a dagger inside, but was restrained. A further search of the room revealed three daggers, a .22 caliber automatic pistol loaded with six rounds, and an unloaded .22 caliber automatic rifle.

On the night of December 30, 1968, patrol inspectors at Laredo, Tex., were assigned to a still watch on the Rio Grande River near the port of entry. They encountered a U.S. citizen emerging from the Rio

Grande after wading the river from Mexico. He was armed with a .22 caliber pistol. It was determined that he was one of a group of citizens smuggling marijuana, and subsequently two other U.S. citizens were apprehended with some 8 pounds of marijuana which was turned over to the U.S. Customs Agency.

## **CARIBBEAN INVESTIGATIONS COORDINATION PROGRAM**

The Caribbean Investigations Coordination Program and the relating Index maintained at Miami continued to be effective measures in assisting to prevent the entry into the United States of Latin American aliens of the criminal, immoral, narcotic, and subversive classes. In addition to its importance to Service operations, it proved valuable to other Government investigative agencies. During fiscal year 1969, there were 143,849 checks made of the Index and 14,282 relating records were located. Primarily on the basis of information contained in the Index, several hundred antismuggling investigations were initiated by the Service. These investigations involved some aliens currently in the United States and some attempting to enter this country illegally or applying for admission as permanent residents or as refugees on the Cuban airlift. Although the majority of the investigations involved Cuban nationals, many involved nationals of other Caribbean countries.

The illegal entry of Cuban aliens into the United States from Mexico has been a Service problem since the take over of Cuba by Castro. However, during fiscal year 1969, the Service became increasingly concerned with the rise in the number of Cuban aliens being located in the United States following illegal entry from Mexico. When interrogated, the majority conceded to having been assisted in various degrees in effecting their entries. The modus operandi disclosed by such interrogation suggested the existence of well organized smuggling rings, the centers of which appeared to be located in Mexico.

Service officers in Mexico intensified their liaison with Mexican Government officials. Emphasis was placed on more comprehensive investigations and interrogation of the aliens involved to obtain specific information essential to establish the complete modus operandi and to identify the operators, smugglers, transporters, and other individuals involved in encouraging the Cubans to enter unlawfully. Mexican officials were furnished complete information on all identified smugglers residing in Mexico with the request that consideration be given to prosecution of the smugglers and others involved as a vital step in frustrating the conspirators preying upon refugees seeking to arrange for clandestine entry. In addition, Mexican authorities were asked to accept the return to Mexico of those Cuban aliens who had entered the United States

illegally. This has served to discourage Cuban aliens from attempting illegal entries and at the same time to dry up the source of income for those unscrupulous individuals who have engaged in illicit smuggling of Cuban aliens. The cooperation of the Mexican officials with our Service officers has been greatly enhanced, and continued efforts are being made to maintain this liaison at a high level.

## FOREIGN-BORN LAW VIOLATORS

*Internal Security and the Foreign Born.* Continued emphasis was placed on the Service Antisubversive Program designed to identify foreign-born subversives and develop evidence upon which to institute exclusion or expulsion proceedings and to deny where warranted, benefits under the U.S. immigration and nationality laws. Close liaison was maintained with other Government agencies concerned in security matters, and information developed was promptly furnished to the appropriate agency or agencies.

A continuing effort was made to identify and compile evidence concerning various groups or organizations to determine whether their characterization as subversive organizations was warranted and, if so, whether involvement in those organizations by the foreign born justified Service action looking toward their exclusion or deportation from the United States, or in the cases of naturalized citizens, the revocation of their citizenship. Investigations were conducted to identify aliens involved in demonstrations protesting the national effort in Vietnam and aliens involved in student disorders to determine their amenability to Service proceedings.

The Canadian and Mexican border antisubversive programs also served effectively as a means of excluding from the United States aliens whose admission would adversely affect the security of this country. Under the Canadian program, there were 28 Service lookouts posted and six aliens applying for admission were rejected at the border on the basis of information developed. Under the Mexican program, there were 199 investigations completed on applicants or potential applicants for admission. Service lookouts were posted against 131 of the aliens involved, 26 such aliens were rejected at the border, and 18 permanent exclusion orders were issued.

Listed below are examples of the types of cases handled under the Service Antisubversive Program:

George Salem Haggar, native of Lebanon and a naturalized citizen of Canada, was admitted as an exchange visitor on August 28, 1968. Haggar was appointed by Southern University in New Orleans, La., to serve as an Assistant Professor of Political Science for the academic year 1968-69. In April and May 1969, he was involved in several incidents at that University which resulted in disruption of normal Uni-

versity procedures, and he attempted to organize a student boycott at Southern University in May 1969. On May 7, 1969, he was suspended from his position at Southern University. Deportation proceedings were instituted on June 16, 1969, and on June 24, 1969, an order of deportation was entered by a special inquiry officer. Shortly thereafter, Haggar left for Canada and thereby executed the deportation order from which he had taken no appeal.

Phillip E. Sandford, native and citizen of Australia, was admitted as an exchange visitor on September 19, 1967, and was granted an extension of stay to September 15, 1969, to attend Florida State University. While in attendance there, he became a member of the Students for a Democratic Society. He failed to register for the school quarter beginning in early April 1969. Deportation proceedings were instituted on May 8, 1969, on the ground that he had failed to maintain his status as an exchange visitor. An order of deportation was entered on May 27, 1969. On June 4, 1969, Sandford was convicted of interfering with a police officer in the performance of his duty and was sentenced to imprisonment for 1 year. On the same date, he was also sentenced for disorderly conduct, receiving a sentence to imprisonment for 6 months and a fine of \$500. The court reduced the sentences to imprisonment to time served, and his deportation from the United States was effected on June 13, 1969.

*Foreign Born of the Criminal Classes.* Investigations involving 11,374 aliens of the criminal, immoral, and narcotic classes were completed during the year as the result of Service efforts in this field. Applications for orders to show cause in deportation proceedings were made in 1,403 of the cases investigated and 441 aliens of the criminal, immoral, or narcotic classes were deported from the United States during the year.

Frank Raymond Bezoet De Bie entered the United States for permanent residence in April 1960, from Indonesia. He was convicted on March 14, 1968, in Dauphin County, Pa., of unlawful possession of narcotics; on March 22, 1968, in Middlesex County, Mass., of breaking and entering with intent to commit larceny; and on October 22, 1968, in Boston, Mass., of larceny. He was deported to Amsterdam, Netherlands, on April 14, 1969.

Lydia Bascialdo, a native of Argentina, entered the United States as a visitor in June 1968. Shortly after entry, she was convicted of conspiracy to smuggle heroin into the United States. She was given a suspended sentence of 2 years on September 18, 1968. An order to show cause and a warrant of arrest were issued by the Service on the same date. After hearing, she was ordered deported, and was deported on September 21, 1968.

Patrick Joseph Mulkerrins, born in Ireland, was admitted to the United States as a permanent resident in 1958. In 1963, he was convicted in Suffolk County,

Mass., of manslaughter and sentenced to imprisonment not to exceed 20 years. He was paroled to the custody of this Service for the purpose of affecting his deportation. After hearing he was ordered deported. Deportation to Ireland was affected on April 19, 1969.

The programs of the Service established to control criminal aliens considered likely to cross the international borders into the United States in pursuit of their criminal endeavors or to enter the United States illegally so as to avoid apprehension were again emphasized. Close and frequent liaison between the Service and law enforcement agencies of adjacent countries was continued and enlarged.

Border criminal identification activity during the year resulted in the posting of 2,626 lookouts designed to prevent entry into the United States of aliens of the criminal, immoral, and narcotic classes. The posting of these lookouts resulted in the rejection or exclusion of 894 aliens of these classes.

Among the undesirable aliens from adjacent countries, coming under Service action was Maurice De Meulle, a native of Canada, arrested by Clark County, Nev., authorities in connection with the cashing of stolen American Express Traveler's Checks and the passing of counterfeit Canadian currency. Investigation by local authorities indicated that there may be several million dollars in counterfeit currency involved. It was alleged that the traveler's checks were obtained in a bank robbery in MacMasterville, Quebec. De Meulle, who has a criminal record in Canada, claimed entry near Plattsburgh, N.Y., on November 11, 1968. He was deported to Montreal on January 14, 1969, where he was taken into custody by the Montreal Police Department and the Royal Canadian Mounted Police.

The Service's problems involving professional, well-trained, organized, and well-financed shoplifters and pickpockets are continuing. The majority of these persons come to the United States from Central and South America. They are usually encountered in large metropolitan areas and frequent events which draw crowds of people. During the year a comparatively large number of such criminal aliens were deported from the United States.

**Frauds.** Investigations of 11,419 possible immigration frauds were completed during this year, an increase of 49 percent over the previous year. Major emphasis continued to be placed on investigations of aliens and other persons engaged in criminal conspiracies to circumvent the immigration laws.

Investigations of the new types of frauds, which developed subsequent to the 1965 amendment to the immigration law requiring Department of Labor certification of immigrants, are largely responsible for the record number of fraud investigations completed this year. Various schemes evolved in efforts made to acquire immediate relative status and thereby evade

the labor certification requirements, e.g., "sham" marriages to U.S. citizens or resident aliens, use of counterfeit marriage and birth records, and false birth registrations in the United States of foreign-born children whose parents are visa applicants.

Investigation of the false birth registrations has thus far identified 20 Texas midwives who falsely registered births in the United States of over a thousand children who were actually born in Mexico. The parents of these children were all applicants, or intended applicants, for immigrant visas. The local authorities are being requested to note or purge the false registration records to preclude their illegal use in the future.

Other schemes involved actual connivance to obtain labor certifications by fraudulent applications and supporting documentation. A vigorous prosecution program has been continued against third parties engaged in these fraudulent practices in evading or obtaining labor certifications.

The investigations disclosed a continuation of previously known schemes involving the use of counterfeit, altered, or fraudulent passports and immigration documents and "sham" marriages to U.S. citizens to evade former quota restrictions.

Examples of the success of these highly complex investigations follow:

Salvatore Vavolizza, President of the Vavolizza Travel Service, Inc., Bronx, N.Y., and one codefendant pleaded guilty on October 14, 1968, to two counts of a 73-count indictment in the Federal District Court, Eastern District of New York. The indictment charged that they had executed supporting documents for first preference visas containing false statements as to the nature of the business, urgent need for the services of the aliens, the duties required to be performed, illegal notarizations, etc. On February 7, 1969, Vavolizza was fined \$7,500, and he and his codefendant were placed on probation for 1 year.

On February 14, 1968, a Federal grand jury returned a 60-count indictment against a New York attorney, Hyman Abrams, charging him with causing false statements to be made to the Immigration and Naturalization Service, the Department of Labor, and the Department of State to help aliens from the West Indies extend their temporary visitor's permits or to obtain permanent residence status. (On July 8, 1969, after trial, Abrams was found guilty on five counts and, on August 13, 1969, was sentenced to serve 1 year. He is at liberty under \$5,000 bond pending appeal.)

Enrique Armando Garcia-Valera, a citizen of the Dominican Republic and operator of the Garcia Agency, a public relations and insurance business located in New York City, was indicted on July 14, 1967, by a Federal grand jury on 28 counts. He was charged with conspiring to defraud this Service and the Department of Labor by filing fraudulent applica-

tions for labor certifications on behalf of visa applicants. Garcia-Valera was found guilty on February 20, 1969, on six counts of the indictment and, on May 19, 1969, was placed on probation for 3 years. The sentence included the additional restriction that he not engage in any deals with or on behalf of any alien, with this Service, the New York State Department of Labor, the U.S. Department of Labor, or an American consulate in connection with visas, and that he turn over all such pending matters to someone else.

On May 16 and 22, 1969, a Modesto, Calif., hotel owner Ghulam Khan, a native of Pakistan and permanent resident of the United States, and four co-defendants entered pleas of guilty to violation of 18 U.S.C. 1001 in the U.S. District Court, Sacramento, Calif. They had been charged with participating in a bogus marriage operation which, for fees of \$500 to \$1,000, hired American "brides" for Pakistani aliens to enable the aliens to obtain immediate relative status and thus adjust their status from temporary visitors to permanent residents. On June 5, 1969, Ghulam Khan was sentenced to 5 months' confinement, fined \$3,000, and placed on probation for 5 years. The four co-defendants were given similar sentences.

On June 2, 1969, Mohammad Amin, a native of Pakistan and permanent resident of the United States, and a codefendant were also sentenced in the same court for their actions in a similar marriage fraud.

Illustrative of the many midwife investigations being conducted by the Service is the case of Guadalupe San Miguel, who pleaded guilty on October 11, 1968, in the U.S. District Court, Del Rio, to four counts under 18 U.S.C. 1425(b) (procurement of citizenship unlawfully). The investigation had disclosed that for a fee she falsely registered the births of approximately 100 children, who were actually born in Mexico, as having been born at Eagle Pass, Tex., during the last 4 years. On November 26, 1968, she was fined \$500 and placed on probation for 5 years.

Since 1958, the Fraudulent Document Center has been operated as a repository for documents used by Mexican aliens to support false claims to U.S. citizenship. Records at the Center consist of birth certificates, baptismal certificates, and other documents relating to citizenship. Since the inception of the facility, a total of 21,326 cases has been received and indexed. Inquiries for record checks increased 34 percent, from 2,805 in 1968 to 3,759 this year, which includes inquiries concerning suspect applicants for U.S. passports received from American consuls in Mexico. Positive responses to inquiries rose 23 percent, from 588 to 721. Affirmative or positive response was furnished in nearly one of every five inquiries in 1969.

A check with the Fraudulent Document Center was sufficient for Port Huron officers to establish a false claim to citizenship by an alien who had previously

evaded apprehension. The records at the Center revealed that birth certificates identical to the one presented had been used three times previously to support false claims to citizenship. The alien claimed he found the birth certificate in Mexico.

For the 8th consecutive year, there was an increase in the number of false claims to citizenship encountered by the Border Patrol. The 2,862 cases developed were 40 percent above the 2,050 cases accounted for last year. The false claims were made by 2,839 Mexicans and 24 aliens of other nationalities. The Border Patrol also reported 1,987 cases wherein Service forms I-151 and I-186 and other documents were used by aliens to support fraudulent claims to legal status in the United States. The number of these frauds was 55 percent greater than those reported in the previous year.

The following cases illustrate the variety of frauds attempted to obtain the benefits of citizenship or legal status in the United States:

In June, officers of the Jacksonville Station engaged in checking bus passengers apprehended six Dominican nationals, five males and one female, when it was determined the aliens had presented fraudulent visas in connection with their admission as visitors. They had been admitted to the United States at Miami after having presented passports which contained counterfeit, machine-stamped visas of excellent quality. The subjects stated that Andre Guzman, a Dominican who reportedly accompanied the aliens to Miami, introduced them to an American named Harrington or Harrelton in Santo Domingo, D.R. This American took their passports and later returned them with the counterfeit visas imprinted therein. Each of the men paid \$200 and the female paid \$400 in Dominican currency for the documents. Prosecution under 18 U.S.C. 1546 was authorized. (All six aliens were found guilty on the one-count indictment. On October 16, 1969, they were sentenced to 2 years, suspended. After immigration hearings, they were ordered deported, and their deportations were effected on October 18, 1969.)

## CRIMINAL PROSECUTION

Of the 8,711 cases presented to U.S. attorneys for violations of the immigration and nationality laws, 5,096 prosecutions were authorized. Convictions numbered 4,623 (91 percent of the 5,079 cases disposed of) resulting in actual, suspended, and probationary sentences totaling over 3,970 years and fines of \$172,105.

There were 1,413 aliens convicted of reentry after deportation without permission (8 U.S.C. 1326); 863 persons convicted for document frauds (18 U.S.C. 1546); 498 persons convicted for nationality violations, and all but one were for false representation as a U.S. citizen (18 U.S.C. 911).

## Detention and Deportation Activities

The number of aliens deported in fiscal year 1969 under orders of deportation was 10,505. This is 1,375 more than the 9,130 deported in fiscal year 1968. Of the aliens deported, 92 percent or 9,673 had entered without inspection or without proper documents or failed to maintain nonimmigrant status, 441 were deported on criminal, immoral, or narcotic charges, and 391 on other charges. There were 6,859 deportations to Mexico, 795 to Canada, 490 to Greece, 206 to Hong Kong, 180 to Jamaica, 143 to Guatemala, and 124 to Colombia.

Among the 272 criminals deported was Alvin Karpis who was sentenced to a life term for conspiracy in the 1933 kidnapping of William Hamm, Jr., a wealthy St. Paul, Minn., businessman who was released unharmed after payment of \$100,000 ransom. Karpis was born Alvin Karpavicz in Montreal, Canada, in 1908 and was brought to this country by his parents in 1915. He was deported to Canada in January 1969.

Michael Bourne Rutt, a native of England, fled England in June 1963, to avoid arrest by the London police for theft and swindling. He gained entry into the United States by deserting the vessel on which he served as a crewman. He was arrested in March of 1967 for his involvement in the theft of about \$250,000 worth of paintings from the home of Hans Hoffman, a well known artist. He was convicted of receiving stolen goods and was sentenced to confinement in the Massachusetts Correctional Institution for 2½ to 4 years. In February 1969, he was deported to England where the London police were awaiting his return.

Peter Richard Karl Schiffman, a member of the criminal class, was deported to Germany on November 29, 1968, for the third time in 1½ years following completion of a sentence for illegal entry after deportation. Mr. Schiffman is well known throughout Europe and the Western Hemisphere for defrauding airlines and hotels. He was taken into custody by German police authorities upon his arrival there as a deportee.

Jose Alfonso Alvarez-Henao, a native of Colombia, was among the 155 aliens deported on narcotic charges. He was identified as one of the many professional couriers active in narcotic circles. When arrested during inspection at Miami International Airport, he had 790 grams of marijuana in his possession. He was convicted in Federal court of smuggling and was deported to Colombia on August 3, 1968.

The number of aliens required to depart without the issuance of formal orders of deportation increased from 179,952 in the last fiscal year to 240,958 in 1969. Among these aliens were 27,072 crewmen technical violators, who had remained longer than the time

for which admitted and 161,283 who entered without inspection. These two groups departed under safeguards.

There were 52,603 who departed after the issuance of documents requiring departure. Included in this number were 38,211 nonimmigrants who failed to maintain the status under which admitted and 11,522 aliens who entered without inspection. The principal nationalities of these aliens were 21,767 Mexican, 3,077 Canadian, 1,904 Jamaican, 1,838 Philippine, 1,773 British, and 1,650 Dominican.

At their own request, 71 aliens who had fallen into distress were removed from the United States under Section 250 of the Immigration and Nationality Act.

Twenty-eight mentally incompetent aliens were deported or removed. Up to the time of deportation, approximately \$207,000 had been expended for their care in the United States. If they had continued to remain institutionalized at public expense, over \$4.6 million would have been disbursed for their maintenance and treatments during their expected lifetimes.

There were 59,771 aliens initially admitted to Service detention facilities and 89,477 to non-Service facilities, increases of 11 percent and 21 percent, respectively, over last year.

## Hearings and Litigation

### EXCLUSION AND DEPORTATION HEARINGS

Once again and continuing the previous trend, the volume of deportation and exclusion cases referred to special inquiry officers during 1969 showed a marked increase. Deportation hearings referred to special inquiry officers nationally increased to 25,479, representing an alltime high record for any single year—the New York District Office alone received 22 percent of the country's total. Exclusion hearings referred to special inquiry officers totaled 1,232 nationally, representing an increase over the total of 968 received in fiscal 1968.

While the number of applications for withholding of deportation on the basis of a claim of persecution decreased slightly during the year as compared with 1968, the list of countries concerning which such claims had been made in previous years was augmented by the addition of Uruguay, Sudan, Estonia, Malawi, and Portugal.

Fiscal year 1969 brought with it an enlargement in the jurisdiction, powers, and responsibilities of special inquiry officers resulting from amendment of administrative regulations. In connection with expulsion proceedings, district directors and other administrative officers have been, in the past, vested with exclusive

authority to determine whether an alien should be continued or detained in custody, whether he should be released, and whether an alien should be released under bond and the amount thereof. Appeals from such determinations were, under former regulations, taken directly to the Board of Immigration Appeals.

Under the new rules which became effective during fiscal year 1969, appeals from such determinations of district directors were eliminated. However, there was conferred upon special inquiry officers authority to consider a request by an alien for release from custody or release under bond, or for reduction in the amount thereof, notwithstanding a previous determination by a district director. The consideration of such a request by the special inquiry officer is separate and apart from the deportation hearing or proceeding and forms no part of such hearing or proceeding, or of the record thereof. The Government or the alien may take an appeal to the Board of Immigration Appeals from the determination of the special inquiry officer. This recent amendment to the regulations confers upon a quasi-judicial officer the authority to make an independent determination respecting the freedom from custody, detention, or bond of an alien involved in deportation proceedings. Here again, the trend in the implementation of the immigration laws is in the direction of adding safeguards which will advance the fair and efficient administration of the law.

## LITIGATION

The General Counsel is the chief law officer of the Service and functions primarily as adviser to the Commissioner and other officers on legal matters in carrying out Service enforcement and administrative tasks under the immigration and nationality laws. He provides executive and professional direction to four regional counsels, who maintain professional supervision over trial attorneys whose primary responsibility is to represent the Service in formal exclusion, expulsion, and rescission hearings before special inquiry officers. Regional counsels and trial attorneys, when requested, assist U.S. attorneys in civil and criminal actions arising under the immigration and nationality laws. Through two appellate trial attorneys, the General Counsel also represents the Service before the Board of Immigration Appeals in all appellate matters.

Reflecting the increase in special inquiry officer hearings, trial attorney work in fiscal year 1969 substantially exceeded the previous year's record figures. Trial attorneys reviewed 15,079 applications for orders to show cause in deportation proceedings. They participated in 9,102 deportation hearings and in 981 exclusion hearings. Trial attorney appearances in administrative hearings of all kinds totaled 10,341, a rise of 20 percent over fiscal year 1968. Trial attorneys prepared 2,363 legal briefs and memoranda.

The Board of Immigration Appeals has jurisdiction of appeals in exclusion, expulsion, rescission of adjustment of status, and visa petition cases. During the year, the Board received 1,742 cases, all of which were reviewed by the appellate trial attorneys to determine whether argument by the Service before the Board was necessary to avoid conflict with Service policy or interpretation of the law. After the decisions were made by the Board, they were referred to the General Counsel for consideration as to whether a motion to reopen or for reconsideration should be submitted to the Board or whether recommendation should be made to the Commissioner that the case be certified to the Attorney General. The appellate trial attorneys argued 363 cases before the Board and submitted to the Board 32 briefs and 10 motions to reopen or reconsider. The year was marked by the briefing and arguing of a wide variety of cases involving alleged violations of the exclusion statute requiring labor certifications, Section 212(a) (14) of the Immigration and Nationality Act, 8 U.S.C. 1182(a) (14); thereby the Board was provided with the means of issuing a definitive series of precedent decisions.

Court litigation challenging administrative decisions in immigration and nationality matters reflected a decrease from the previous fiscal year of 27 percent in new suits instituted. However, completions of court actions did not keep pace with receipts, and there were left pending at the end of fiscal year 1969, 20 percent more cases than had been pending at the beginning. This was attributable principally to overall heavy case-loads in the courts and in the offices of the U.S. attorneys. A total of 376 court actions were filed. In the district courts, there were filed 34 petitions for writs of habeas corpus and 71 declaratory judgment actions. All decisions in habeas corpus proceedings were favorable to the Service, as were the decisions in all but one of the declaratory judgment suits. In the courts of appeals, 224 direct petitions for review of deportation cases were filed under Section 106 of the Immigration and Nationality Act, 8 U.S.C. 1105a. Of the decisions of the courts of appeals during the year on petitions for review, 164 were favorable to the Service and five were adverse. The Supreme Court denied 16 petitions for certiorari in civil immigration and nationality cases, denied three petitions for rehearing, agreed to hear and decided one case, and in one other case summarily affirmed the lower court's judgment on a constitutional issue.

The one case argued before and decided by the Supreme Court during the year resolved a conflict between two courts of appeals and was important to the efficiency of Service operations. *INS v. Stanisic*, 395 U.S. 62, concerned an alien seaman whose conditional entry had been revoked and who had been ordered detained and deported aboard his vessel pursuant to Section 252(b) of the Immigration and Na-

tionality Act, 8 U.S.C. 1282(b), and who had also been refused asylum in the United States on his claim that he would be persecuted in his country. The alien had contrived through litigation and private bills in Congress to prolong his stay in the United States until long after his ship had departed. The Supreme Court ruled that it was lawful for the Service to provide for adjudication of the seaman's persecution claim by a district director under the parole statute, Section 212 (d)(5) of the Immigration and Nationality Act, 8 U.S.C. 1182(d)(5), rather than by a special inquiry officer in expulsion proceedings under Section 242(b) of the Act, 8 U.S.C. 1252(b). The Court also ruled that a deportation order under Section 252(b) of the Act, the crewman statute, made while the alien's ship was in the United States remained enforceable after the ship departed, and that it was not necessary, as had been declared below by the Court of Appeals, Ninth Circuit (393 F. 2d 539), to start over again under Section 242(b) of the Act, the general deportation hearing statute. In *Dymytryshyn v. Esperdy*, 393 U.S. 77, the Supreme Court affirmed without opinion a decision by a three-judge constitutional court in the Southern District of New York (285 F. Supp. 507) that Section 242(d) of the Immigration and Nationality Act, 8 U.S.C. 1252(d), authorizing supervision orders for aliens who have been in the United States more than 6 months under orders of deportation, is not an unconstitutional bill of attainder when applied to aliens whose deportability rests on membership in the Communist Party.

The Government was upheld in all of the 16 civil cases in which the Supreme Court denied certiorari, thereby declining to review the decisions of the lower courts. The denial of certiorari in *de la Cruz-Martinez v. INS*, 404 F. 2d 1198, cert. den. 394 U.S. 955, left undisturbed the ruling of the Ninth Circuit that an alien was deportable under Section 241(a)(11) of the Immigration and Nationality Act, 8 U.S.C. 1251(a)(11), for a narcotics conviction even though after his commitment to the California Youth Authority his conviction was set aside pursuant to California law when he earned an honorable discharge from the Youth Authority. The denial of certiorari in *Kwai Chiu Yuen v. INS*, 406 F. 2d 499, 773, 774, cert. den. 395 U.S. 908, left undisturbed the ruling by the Ninth Circuit that it was not an unconstitutional abridgment of the power of executive clemency for Congress to provide in Section 241(b) of the Immigration and Nationality Act, 8 U.S.C. 1251(b), that a full and unconditional pardon by the governor of a State for a narcotics law conviction would be ineffective to prevent deportation on the basis of that conviction. The denial of certiorari in *Tormey v. INS*, 393 U.S. 854, left undisturbed the ruling of the Second Circuit that a petition for judicial review under Section 106(a) of the Immigration and Nationality Act, 8 U.S.C.

1105(a), of a motion addressed to the administrative authority years after the deportation order cannot be used as the means of belatedly seeking review of the original order. (Cf. *Velasquez-Espinosa v. INS*, 404 F. 2d 544, C.A. 9, 1968, to the same effect.) The denial of certiorari in *Yuen Kam Chuen v. Esperdy*, 279 F. Supp. 151 (S.D.N.Y.), aff'd. 393 F. 2d 938 (2nd Cir.) cert. den. 393 U.S. 858, rehearing den. 393 U.S. 956, left undisturbed the district court's ruling that the restricted choice stated in Section 254(c) of the Immigration and Nationality Act, 8 U.S.C. 1284(c) does not prohibit the deportation by airplane of a paroled seaman who arrived by ship. The denial of certiorari in *Cheng Ho Mui v. Rinaldi*, 408 F. 2d 28, cert. den. 395 U.S. 963, left undisturbed the ruling by the Third Circuit, agreeing essentially with the Second Circuit's 1966 ruling in *Tai Mui v. Esperdy*, 371 F. 2d 772, cert. den. 386 U.S. 1017, and rejecting an attack on Service regulations for failure to designate either the United States or a Far Eastern country as a place where an alien crewman may apply for conditional entry into the United States as a refugee under Section 203(a)(7) of the Immigration and Nationality Act, 8 U.S.C. 1153(a)(7).

During the year, there were a number of important final decisions by courts of appeals. In *de Vargas v. INS*, 409 F. 2d 335 and in *Velasquez-Espinosa v. INS*, 404 F. 2d 544, decided respectively by the Fifth and Ninth Circuits, it was held that an alien who obtains an immigrant visa by fraudulently concealing that he belongs to a qualitative excludable class (previous deportee and draft dodger) is not protected from deportation by Section 241(f) of the Immigration and Nationality Act, 8 U.S.C. 1251(f), because he was not "otherwise admissible". In *Bilbao-Bastida v. INS*, 409 F. 2d 820, the Ninth Circuit ruled that the Service could lawfully restrict the use of alien registration receipt cards so that if a resident alien traveled to Cuba, a prohibited area, his card would lose its validity as a travel document, and he would need an immigrant visa in order to reenter the United States. In *Dong Yup Lee v. INS*, 407 F. 2d 1110, the Ninth Circuit rejected an alien's contention that after he had been found entitled to a temporary visa for employment as a musician "of distinguished merit and ability" under Section 101(a)(15)(H)(i) of the Immigration and Nationality Act, 8 U.S.C. 1101(a)(15)(H)(i), he was automatically qualified for a preference visa for permanent residence as a person "of exceptional ability in the . . . arts" as defined by Section 203(a)(3) of the Immigration and Nationality Act, 8 U.S.C. 1153(a)(3). The court upheld the administrative ruling that the latter requirement is more stringent. In *Kovac v. INS*, 407 F. 2d 102, the Ninth Circuit ruled that an erroneous legal standard had been used in the administrative denial of an application under Section 243(h) of the Immigration and Nationality Act, 8 U.S.C.

1253(h) for withholding of deportation to the alien's country on the ground of persecution. The court held that the 1965 amendment of section 243(h) was intended to lighten the burden on an alien, shifting the emphasis from the consequences of oppressive governmental conduct to its motivation. A deliberate imposition of substantial economic disadvantage could constitute persecution without amounting to deprivation of all means of gaining a livelihood. The Second Circuit ruled in *Wong Kam Cheung v. INS*, 408 F. 2d 35, that under Section 243(a) of the Immigration and Nationality Act, 8 U.S.C. 1253(a), an alien is entitled to make only one designation of a country of deportation and has no absolute right to withdraw the designation. In another case involving section 243(a), *Ngai Chi Lam v. Esperdy*, 411 F. 2d 310, the Second Circuit held that when an alien designates a country of deportation frivolously, admitting that he does not want to go there and that his motive is delay, the special inquiry officer may decline to accept the designation.

## Alien Address Reports

A total of 4,002,668 aliens reported their addresses during January 1969 in accordance with the requirements of the Immigration and Nationality Act (66 Stat. 163). With the exception of the initial registration of aliens in 1940, this is a record number and represents a slight increase of 126,364 over the number of reports received in 1968 (3,876,304). In January 1969, 3,506,359 (87.6 percent) of all aliens reporting were listed as permanent residents and 496,309 as visitors, students, and others in the United States temporarily.

Over three-fourths of the total reported alien population reside in the following nine States: California, 944,149 (23.6 percent); New York, 740,369 (18.5 percent); Florida, 267,360 (6.7 percent); Texas, 249,735 (6.2 percent); Illinois, 239,705 (6.0 percent); New Jersey, 219,406 (5.5 percent); Massachusetts, 160,048 (4.0 percent); Michigan, 149,099 (3.7 percent); and Pennsylvania, 107,303 (2.7 percent).

Mexicans again made up the largest nationality group with a total of 720,820 reporting. Of this total, 97 percent (701,979) were permanent resident aliens. Nearly 81 percent of the permanent resident Mexican aliens reside in California and Texas. Aliens of these nationalities followed Mexico in terms of volume: Canada, 409,494 (382,116 or 93 percent were permanent residents); Cuba, 395,008 (265,366 or 67 percent permanent residents); the United Kingdom, 321,705 (239,349 or 74 percent permanent residents); Italy, 241,230 (230,094 or 95 percent permanent residents); and Germany, 229,565 (217,489 or 95 percent permanent residents).

One of the sharpest proportional increases of permanent resident aliens is found among Cuban nationals. This is primarily the result of Public Law 89-732 which permits Cubans to adjust their refugee status to that of permanent resident aliens. For example, in 1968 a total of 358,601 Cubans reported their addresses, of which 207,561 (58 percent) were permanent residents; in 1969, 395,008 reported and 265,366 (67 percent) were permanent residents, an increase of 28 percent. The increase of Cuban permanent resident aliens since 1967 is even more striking: out of 317,144 reports received in 1967 only 147,805 (47 percent) were permanent residents. Thus, from 1967 to 1969 there has been an increase of 80 percent (117,561) in the number of permanent resident Cuban aliens. The number of Cubans in the United States in temporary status has declined accordingly from 169,339 in 1967, to 151,040 in 1968, to 129,642 in 1969.

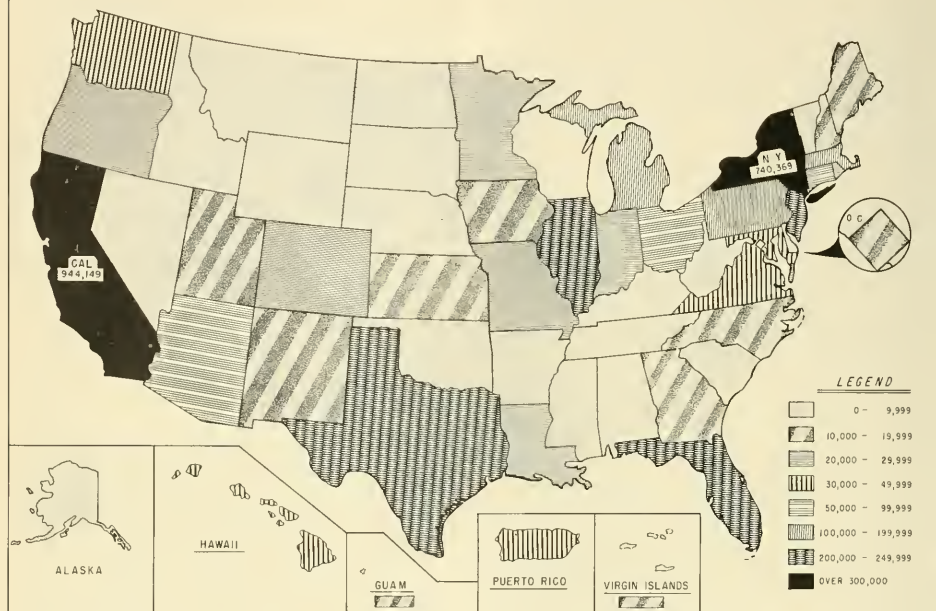

## Citizenship

It is in the public interest for every qualified alien to have the earliest possible opportunity to become a citizen if such be his desire. Aliens sometimes fail to apply for naturalization, because they do not realize that they have achieved eligibility under the statute. Others sometimes procrastinate because their misunderstanding of the naturalization process leads them to believe that they are incapable of qualifying for one reason or another. Accordingly, the Service provides information clarifying these matters.

A Service booklet and other material describing and explaining the naturalization requirements and procedures in the simplest of terms were made readily available to all interested parties. During the fiscal year, the informative booklet was not only revised to include a reference to the new special benefits conferred upon Vietnam servicemen and veterans, but for the first time a Spanish language edition was printed to meet the needs of the many Spanish-speaking aliens residing in the southwestern part of the Nation. Constructive guidance and assistance also were offered by specially trained personnel at the field offices and by naturalization examiners during their periodic visits to the naturalization courts, to the public school citizenship classes, and to many of the military installations in the United States. The clerks of the naturalization courts continued to lend their valuable assistance as a source of information, and the information media constituted another means of reaching potential candidates for naturalization. Service motion picture films, such as the one entitled "Are You a Citizen," also were used to acquaint aliens with the mechanics of the naturalization process and especially to eliminate

# ALIEN ADDRESS REPORTS - BY STATES

1969

the often erroneous impression that the cherished goal of citizenship is beyond their capacity. Service films are available for loan to recognized organizations engaged in promoting good citizenship and encouraging aliens to apply for naturalization.

During the fiscal year, the Service also continued to implement its policy of notifying newly naturalized citizens of their statutory right to petition for the naturalization of their alien children. Under the statute, such naturalizations have to be completed before the child is 18 years of age. Before this notification program was put into practice, a great majority of naturalized persons through ignorance either failed to apply in behalf of their children or waited until the children were too old to qualify under the law.

## NATURALIZATION ACTIVITIES

**Citizenship Instruction and Training.** Although the Congress has authorized the naturalization of certain elderly, long-time alien residents of the United States despite their inability to speak, understand, read, and write words in ordinary English usage, the

overwhelming majority of naturalization petitioners are obliged to meet these English language requirements. Moreover, closely related to the fulfillment of citizenship responsibility is the further statutory prerequisite (from which there is no exception); namely, a fair knowledge of the history, Government, and Constitution of the United States. For more than 50 years, the law has authorized Federal agency activity to promote the instruction and training of naturalization applicants in these matters.

The Service effort to assist prospective citizens in their preparation to meet the educational requirements for naturalization begins with their entry into the United States. The names and addresses of 164,271 immigrants who arrived during the fiscal year were forwarded to public schools located in the places of intended residence in order that invitations to enroll in citizenship classes might be extended to the newcomers. For the same use, similar information was supplied for 25,197 naturalization candidates, either upon receipt of their applications or the continuance of their petitions for failure to satisfy the educational prerequisites.

Young and old become citizens. At a naturalization ceremony in Milwaukee, the youngest of 72 new citizens was 5 years old; the boy was adopted in Germany. The oldest of the group to share the honors was an 88-year-old native of China.

—Milwaukee Sentinel Photo.

Of the candidates for naturalization, 115,450 were in attendance at 5,590 public school citizenship classes during the fiscal year; and 2,759 other aliens who could not attend school received their instruction through enrollment in the Service home study courses administered by the educational authorities or institutions in 42 States. Late in the fiscal year, the Bureau of Special Continuing Education, State Educational Department, Albany, N.Y., completed plans to administer home study citizenship courses for the residents of New York State who, theretofore, had been without such services.

The Service-published textbooks of the "Becoming a Citizen Series" and a major part of the modern "Federal Textbook on Citizenship" were once again extensively used as text and study material by naturalization candidates attending the public school citizenship classes. During the year, a total of 79,518 units of the textbook were furnished for such use without cost as authorized by statute. Additionally, 39,834 other units of the textbook, especially adapted for home study preparation, were furnished for the use of those aliens who enrolled in the correspondence courses.

Also contributing to the furtherance of citizenship education were historical films such as "The American Flag," "Early Settlers of New England," "The Declaration of Independence by the Colonies," and "The Bill of Rights of the United States," which were made available by the Service to civic, patriotic, and other

recognized organizations dedicated to the education and assimilation of the foreign born. As the year closed, the Service completed arrangements for the purchase of six additional films, all in color, entitled, respectively, "The Constitution—Guardian of Liberty," "Our Immigrant Heritage," "The Plymouth Colony: The First Year," "How We Elect Our Representatives," "Are You a Good Citizen," and "The Jamestown Colony." The Service is confident that these new additions to its motion picture portfolio will make a material contribution to the realization of the educational objectives.

Citizenship Day, celebrated every year in all parts of the United States, and Law Day and Loyalty Day, recognized in some States, were occasions for extensive Service activity designed to stress citizenship responsibility and stimulate the practice of good citizenship by all citizens—natural born and naturalized alike. Service officers, in cooperation with many patriotic and public-spirited citizens and organizations, planned and participated in many impressive ceremonies and observances on such occasions to further these objectives.

No exercises conducted on these commemorative occasions were more inspirational or moving than the naturalization proceedings in which American servicemen—many on brief leave from Vietnam duties—received their citizenship. Representative of such proceedings was the Law Day ceremony conducted in the U.S. District Court at Agana, Guam, when 108 persons were naturalized. Among the new citizens were 23 members of the Armed Forces of the United States. Under special arrangements with the military authorities, the applications of these petitioners were received and processed by Service officers before the men arrived on Guam by air, with interviews and examinations accomplished quickly after arrival. Following

Army sergeant is granted U.S. citizenship while on leave from his duty station in West Germany. The judge who presided at the hearing is seen here with the sergeant and his wife and daughter.

the impressive hearing, the military men were flown back to their post of duty, some returning to combat stations in Vietnam.

Outstanding, impressive, Law Day observances were also conducted in conjunction with naturalization proceedings in the U.S. District Court at Honolulu. On this occasion, 61 U.S. servicemen and 133 civilians were admitted to citizenship at a special outdoor ceremony held on the parade grounds of Fort DeRussy.

**Persons Naturalized.** While more applications for naturalization were received in 1969 than in 1968, there was a slight decrease in the number of persons admitted to citizenship during 1969. Primarily, this was caused by unavoidable clerical shortages. Generally speaking, however, by putting emergency innovations into operation, the Service was able to maintain a satisfactory currency in the disposition of the caseload. A further increase in the basic naturalization volume in the years immediately ahead may be expected, not only because of increased immigration in recent years, but also because almost 90,000 Cuban refugees will become eligible to apply during the period.

During the year, Service officers appeared at final naturalization hearings in 580 Federal and State courts and, based upon their examinations and representations, a total of 98,709 aliens were admitted to U.S. citizenship at these proceedings. Before being granted naturalization, each alien was required to take a solemn oath of allegiance to the United States, whereby he or she renounced all foreign allegiance and promised to support and defend the Constitution and laws of this country against all enemies, foreign and domestic.

As in years gone by, the greatest number (73,489) of the new citizens achieved naturalization under the general provisions of the statute, which require continuous permanent residence in the United States for 5 years. Based upon their status as the spouses of U.S. citizens requiring 3 years' residence, 14,346 were granted citizenship. The group also included 5,271 natural or adopted children of U.S. citizens, beneficiaries of petitions filed by their parents; 5,458 servicemen or veterans who were able to establish eligibility irrespective of residence, based upon a period of honorable military service; and 145 others. During the year, nine widows of citizen servicemen killed in Vietnam, ineligible for naturalization under normal provisions of the law, received immediate citizenship under the remedial legislation enacted in the last session of Congress.

A majority of the newly naturalized persons were formerly nationals of a relatively few countries, i.e., Germany (10,618), Cuba (9,654), Italy (8,773), the United Kingdom (7,979), Canada (6,387), and Mexico (5,111). The remainder was comprised of citizens or subjects of 109 other foreign states situated on all parts of the globe. Among the new citizens were

Mrs. Margarete Hallett, whose citizen husband died in Vietnam, was one of the first widows to benefit from special legislation which provided for expeditious naturalization.

11,420 persons in the professions; 8,765 skilled technicians and craftsmen; 4,087 managers, foremen, and merchants; 21,351 clerical, sales, and service workers; 11,222 operatives; 876 private household workers; and 3,276 farmers, farm laborers, and laborers.

The fiscal year witnessed many interesting events in the naturalization area. Among them were the appearance of President Nixon, then the Republican Presidential candidate, as a witness to petitions for naturalization filed by two of his employees, and the use of the White House as a setting for a final naturalization ceremony in the U.S. District Court for the District of Columbia. A deaf-mute who was able to undergo examination and take the requisite oath of allegiance through a sign language interpreter achieved naturalization during the period, as did several persons whose inability to appear at courthouses on account of severe illnesses prompted the courts to authorize their naturalization at the places where they were bedridden.

A number of the military naturalizations during the past year involved an application of the relatively recent enactment which amended the statute to authorize expeditious naturalization based upon honorable active service during the period of the South Vietnam hostilities. The Service collaborated with the

## PERSONS NATURALIZED 1965-1969

Department of Defense in the preparation of a detailed set of instructions relative to the new legislation and naturalization procedure. This Department of Defense directive should assure that each alien serviceman will have the information he needs to obtain citizenship on the earliest date possible under the circumstances in his particular case.

**Denials of Naturalization.** The number of petitions for naturalization denied totaled 2,043, a small increase over the figure of a year ago. Of those denied, 981 petitions were voluntarily withdrawn when it became clear to the petitioner that the statutory requirements for naturalization could not be met at the time, and that it would be a waste of time and money for him to appear at the final hearing in court in an effort to contest the matter. Similarly, another substantial group of 910 petitions was denied because the petitioners failed to prosecute their cases to completion. A high percentage of these denials and withdrawals related to the petitions of persons who were unable to meet the educational prerequisites and needed additional time to study. A deficiency in English literacy accounted for 306 denials compared with the 288 denied on that premise in 1968.

The petitions denied because the petitioner did not have a fair knowledge of the history, Government, and

Constitution of the United States totaled 212, 13 percent more than the number denied upon such basis a year ago. Some of the other reasons for denial were lack of good moral character, inability to take the oath of allegiance, petition not supported by required affidavits of witnesses, etc.

### DERIVATIVE CITIZENSHIP

Almost since the beginning of the Nation, the law has provided for circumstances under which the foreign-born children of U.S. citizens acquire U.S. citizenship at birth. Under a succession of other statutes extending back through the years, children who did not become citizens at birth in a foreign country could derive U.S. citizenship after birth upon the naturalization of their parents.

At one time, alien women were able to obtain citizenship by marriage to a U.S. citizen or as a result of an alien husband's naturalization during the existence of the marital status. Citizens within these derivative classes frequently experienced difficulty in proving their citizenship, and to alleviate this situation, the issuance of certificates of citizenship was authorized by the Congress. The law provides that once the docu-

**Petitions for Naturalization Denied on "Merits," on Grounds of "Petition Withdrawn" and on Grounds of "Petition not Prosecuted," by Reasons: Year Ended June 30, 1969**

ment is issued by the Service, it must be accepted everywhere as proof of the holder's citizenship.

Of the 29,739 derivative certificates issued during 1969, 16,606 were furnished children who acquired citizenship at birth abroad, 12,822 were issued to children who derived citizenship through the naturalization of their parents, and 311 were made available to women who became citizens through marriage. This last group is a very substantial number when one realizes that citizenship has not been conferred in this manner since the relevant statute was repealed on September 22, 1922. Included in the total were 300 certificates issued to persons who became citizens through their parents at birth in the Panama Canal Zone or the Republic of Panama. Until the enactment of remedial legislation 3 years ago, the certificates of citizenship could not be delivered outside the United States.

## OTHER CITIZENSHIP ACTIVITIES

Because of the major demands of the naturalization and citizenship status caseloads, the importance of other nationality applications which are processed and adjudicated by the Service is sometimes overlooked. By statute, certificates of naturalization and citizenship and declarations of intention, when lost, mutilated, or destroyed, can be replaced by the Service. A certificate can also be replaced with one issued in a new name, if it is established that the name appearing on

the original document has been legally changed. Special certificates of naturalization for use by naturalized citizens in obtaining recognition as such by foreign states may also be issued. Certifications from nationality records and documents for use in compliance with Federal and State statutes and in judicial proceedings, or where they are to be used for some other legitimate purpose, are likewise available. Pursuant to application, the Service may also issue an order preserving an alien's residence for naturalization purposes during a period of extended absence. By the end of the fiscal year, 10,603 such applications had been handled by the Service exceeding somewhat the total of each of the last 2 years.

For many years, statutes enacted by the Congress have provided that U.S. citizenship may be lost by the voluntary performances of specified acts. However, in recent years, decisions of the U.S. Supreme Court have invalidated a number of expatriation grounds. As a result, the number of reported expatriations during the fiscal year declined to 450 compared with 3,374, 10 years ago. This total included four who lost their citizenship by obtaining naturalization in a foreign state, two by taking an oath of allegiance to a foreign state, and 444 by express renunciations. During the past year, 274 certificates of citizenship administratively issued were canceled for fraudulent procurement of such certificates.

The U.S. Supreme Court in its most recent decision relating to expatriations, namely, the decision in *Afroyim v. Rusk*, stated that a U.S. citizen has a constitutional right to remain a citizen unless he voluntarily relinquishes that citizenship. During the fiscal year, the Attorney General issued a Statement of Interpretation relative to the effect of this statement upon the validity of statutory grounds for expatriation which were not under consideration in *Afroyim v. Rusk*. Thereafter, representatives of the Service, the Department of Justice, and the Department of State met in consultations to formulate rules which would assure a uniform application of the Attorney General's Statement of Interpretation and a resultant uniformity in decisionmaking.

Beginning with the Act of June 29, 1906, the naturalization statutes have contained provisions authorizing the citizenship of naturalized citizens to be revoked in judicial proceedings where it appeared that their admission to citizenship was illegal or fraudulent in nature. The elimination of illegality and fraud from the naturalization process is largely dependent upon a skillful and thorough examination of the applicants by Service officers, to the end that perjury, concealment, and misrepresentation by the applicants will not be possible. Bearing witness to the ever-increasing effectiveness of the naturalization examiners along such lines is the fact that, during the past decade, the annual volume of revocations decreased from 154 cases

in fiscal year 1959 to only five cases in fiscal year 1968. Moreover, this trend not only continued throughout fiscal year 1969, but it achieved a climax in that no naturalizations were revoked during the yearly period.

## Administrative Services

Administrative Services covers the many steps needed to service the needs of the operations' arm of the Service. Personnel assignments, employee relations, pay checks, procurement, building programs, and statistics are all details necessary to forward the active programs of the Service.

**Personnel.** Greater emphasis was placed on establishing a successful position classification program throughout the Service in fiscal year 1969. An extensive revision of the classification policy encourages the active participation of all supervisory employees in the classification process. Many of the Service's major occupational groupings including investigators, Border Patrol officers, and General Attorneys, have been given intensive study, sometimes in conjunction with the Department of Justice or the Civil Service Commission. Thus, communication lines have been increased between the Central Office and field offices, the Department, and the Commission, all of which has helped to promote the successful operation of the classification program.

Training continued to be stressed during 1969. At the Service Officer Development Center at Port Isabel, Tex., a total of 290 officers and other employees completed courses. Among these students were 128 patrol inspectors (trainee) and seven investigators (trainee) graduated from two Border Patrol Academy sessions. In addition, Service employees completed 2,882 lessons in the Service's Extension Training Program, while employees of other agencies completed 344 lessons. A total of 33,248 man-hours of off-the-job training in the Servicewide "INS Supervisory Development Conference Series" was reported. A new inservice program of instruction entitled "Training Program for Electronic Technicians" was planned and implemented by Service Engineers on June 18, 1969. A total of 242 interagency training programs was completed by Service personnel during the year, while the Service provided training for 372 employees of other agencies.

Service employees, as well as employees in Customs, Plant Quarantine, and Public Health participated in a 2-week program of instruction entitled "Accelerated Inspection System Interagency Training Program for Primary Inspection." The objective of this course is to train officers to carry out the multiple duties of the four agencies in a speedy, courteous, and efficient inspection of each person entering this country at an airport.

During the past year, negotiations between representatives of the Service and representatives of the National Border Patrol Council and the National Council of Immigration and Naturalization Service Employees resulted in two separate national collective bargaining agreements.

**Incentive Awards.** The year saw 496 employees receive lump sum monetary awards in recognition of superior performance or special acts. An additional 301 employees were accorded quality within-grade salary increases for superior work performance. A total of 369 employee suggestions were received of which 101 were adopted for use by the Service.

**Finance.** More than 275,000 checks were issued by the Treasury Department this year in payment of 73,425 vouchers certified by Finance personnel. Most of the checks covered employees' salaries, but payments were also made for travel and transportation expenses, refunds, reimbursements, imprest fund replenishments, taxes, claims, and all contractual obligations. In addition, the 56,000 cash payments made by the Service's 215 imprest fund cashiers resulted in a substantial savings to the Service.

The reinstitution of overtime inspection charges for small private aircraft and vessels created an additional workload in bills rendered to and collected from owners and a flood of inquiries requesting clarification of amounts charged and their legality.

Based on recommendations of the President's Commission on Budget Concepts, the Treasury Department required all agencies to submit on a test basis, beginning in July 1968, new reports of Selected Balances for Stating Budget Results on an Accrual Basis. As the Immigration and Naturalization Service's accounting system has been established under the accrual concept since 1967, only nominal modification was necessary. The Service was cited by the Treasury Department as one of the agencies to demonstrate the reporting capability from the essential standpoint of timeliness.

**Statistics.** A continuing effort by the Government to economize in the administration of public agencies has increased the need for proper management information tools to effectively allocate manpower and resources. For this reason, the Service work measurement system's importance to all levels of management has been emphasized. It continues to remain the sole source of statistical data that encompasses the entire scope of Service activities, providing information to the first line supervisor as well as top management.

During the year, a major change was made in obtaining statistical data relating to immigration, naturalization, passenger travel, and other areas of Service activity. For a number of reasons, the Service converted its data processing system to utilize the more widely used 80-column statistical punchcards in lieu of the outdated 90-column system. This change has enabled the Service to not only obtain newer equip-

ment for processing data, but also provide a data base for which additional technological improvements in data handling may be made in future years. It also provides data on punchcards which is compatible with the majority of large computer systems in other Government agencies, as well as private industry, thereby increasing the potential utility of the data collected throughout the Service.

Detailed statistics on immigration, naturalization, passenger travel, nonimmigrant visitors, and alien address reports were compiled. The interest of transportation lines, the U.S. Travel Service, and other Government agencies in alien and citizen travelers into and out of the United States is evident in the numerous requests for detailed information not contained in published reports. The admission of immigrants in the professional and highly technical positions continues. To meet this quest for information from many scholars and research agencies, the "Annual Indicator" relating to the flow of professional and highly skilled immigrants was again published as a result of the interest expressed in the information available in last year's first such report. Continued interest lies in the southwestern United States where both legal and illegal movement of aliens across the United States-Mexican border has caused considerable concern.

**Procurement and Property Management.** In fiscal year 1969, 158 contracts or leases were completed, and

8,343 purchase orders were issued by the Service. Servicewide printing facilities duplicated over 17 million pages of instructions, reports, regulations, and procedures.

The upgrading of the Service's vehicle fleet greatly alleviated the abnormally high cost of maintaining the high-mileage vehicles previously in use.

**Records.** Additional open-shelf filing sections were acquired in an attempt to adequately house the ever-increasing volume of required record material of the Service. During the past fiscal year, nearly a million new Service files on newly arrived immigrants and other persons involved in Service actions were created. This number represents a 7-percent increase over last year. To facilitate the location of this material, additional mechanical equipment was installed at various Service locations. A double-digit sorter was installed at the Master Index in Washington, D.C., and a power file for housing subject files was installed in the Central Office. The Master Index required by Section 290 of the Immigration and Nationality Act now contains over 58 million documents.

A continued effort to reduce storage costs by utilizing economical storage at Federal Records Centers resulted in the removal of 6,042 cubic feet of records, equivalent to 755 five-drawer file cabinets, from the crowded, costly storage facilities in Service Files Control Centers, and 5,011 cubic feet of records were

The Master Index of the Service, containing approximately 58 million entries, is housed in 84 mechanical index machines. To provide rapid communication of results of index searches, 21 Teleautograph substations are connected to the master console in the far background. Annually, searches of over 800,000 documents and filing of approximately 5 million documents are performed.

destroyed under approved disposal schedules throughout the Service.

The Friden Flexowriter Units, introduced in 1964 to automate the visa processing procedure, were supplemented throughout the Service. With the establishment of a Visa Processing Center in Twin Cities, Minn., all four regions now have improved facilities to perform this essential Service task. To further take advantage of this time saving automated system, a Visa Processing Center has also been established in the Central Office.

**Building Programs.** The St. Albans, Vermont, District Office and the Northwest Regional Office moved into Federal Office Buildings. Projects awarded and appropriated by the U.S. Customs Service which were planned in conjunction with this Service and completed in the past year were a new border station at Churubusco, N.Y., and cottages to house inspectors at both Coburn Core, Maine, and Raymond, Mont. No projects were contracted jointly by the Service and U.S. Customs.

The following projects were completed during fiscal year 1969 with funds appropriated by the General Services Administration: improvements to border stations at Blaine, Wash., Eagle Pass, Tex., and Douglas, Ariz.; improvements to the Border Patrol sector headquarters and the construction of pistol ranges at Del Rio, Tex., and Havre, Mont.; and the leasing of a border station at Rio Grande City, Tex.

Repairs due to extensive damage caused by hurricane Beulah at the Service installation at Port Isabel, Tex., the site of the Service Officer Development Center, were completed.

Physical changes to implement the accelerated inspection system were completed at airports in Anchor-

age, Seattle, San Antonio, and Dulles Airport in Washington, D.C., Logan Airport in Boston, and John F. Kennedy Airport in New York City. The system will be operational in Chicago as soon as the necessary changes can be made. Meetings are continuing with airport authorities for the early implementation of the system at additional locations, including Los Angeles, San Francisco, Honolulu, and Miami.

A number of other projects are being reviewed with the General Services Administration in an effort to provide better facilities and adequate housing at ports of entry and Border Patrol stations throughout the country.

Automatic writing machines being used to process immigrant visas at the Central Office. An eight-channel punched paper tape is produced that can be rerun on auxiliary equipment using various program tapes to produce other required forms to provide evidence of alien registration and gather statistical data.

TABLE 1. IMMIGRATION TO THE UNITED STATES:  
1820-1969

/From 1820 to 1867 figures represent alien passengers arrived; 1868 through 1891 and 1895 through 1897 immigrant aliens arrived; 1892 through 1894 and from 1898 to the present time immigrant aliens admitted./

<sup>1/</sup> An immigrant is an alien admitted for permanent residence. A nonimmigrant is an alien admitted in temporary status. Returning resident aliens who have once been counted as immigrants are included with nonimmigrants, although the immigration laws treat such aliens as immigrants.

<sup>2/</sup> Conditional entrants include 8,987 conditional entrants who will not become permanent residents until after 2 years' residence, and 546 whose status was adjusted under section 245 and section 203(a)(7)(A).

<sup>3/</sup> Includes private bill cases.

<sup>4/</sup> Immigrants subject to the numerical limitations of the Western Hemisphere.

TABLE A. IMMIGRANTS ADMITTED BY CLASSES UNDER THE IMMIGRATION LAWS AND COUNTRY OR REGION OF BIRTH  
YEAR ENDED JUNE 30, 1969

(Numbers of visas issued and immigrants admitted will not necessarily agree. Differences may be caused by failure of all immigrants to make use of the visas issued, or by immigrants who are admitted to the United States in the year following the one in which the visas were issued, or by adjustments chargeable to future years.)

Country or region of birth	Number admitted	Immigrants subject to numerical limitations			Total immigrants exempt from numerical limitations	Parents of U.S. citizens	Wives of U.S. citizens	Husbands of U.S. citizens	Children of U.S. citizens	Adjustments and adjustments under:				Other classes

1/ Includes 8,987 conditional entrants under Section 203(a)(1)(3)(A) of P.L. 89-236, whose immigrant status does not become final until 2 years after entry, and 10 foreign government officials who adjusted under Section 13 of Act of September 11, 1957.

2/ Includes Taiwan.

3/ Includes Arab Palestine.

TABLE A-1. IMMIGRANTS ADMITTED TO THE UNITED STATES BY COUNTRY OR REGION OF LAST PERMANENT RESIDENCE  
YEAR ENDING IN 1962

(Numbers of visas issued and immigrants admitted will not necessarily agree. Differences may be caused by failure of aliens to make use of the visas issued, or by immigrants who are admitted to the United States in the year following the one in which the visas were issued, or by adjustments chargeable to future years.)

Country or region of last permanent residence	Number admitted	Immigrants subject to numerical limitations <sup>1/</sup>		Total	Total immigrants exempt from numerical limitations <sup>2/</sup>		Percent of U.S. citizens	Males of U.S. citizens	Males of U.S. citizens	Children of U.S. citizens	Admissions and adjustments under				Other classes

TABLE 13. IMMIGRATION BY COUNTRY, FOR DECADES:  
1820-1969 <sup>1/</sup>

<sup>1/</sup>From 1820 to 1867, figures represent alien passengers arrived; 1868 to 1891, inclusive, and 1895 to 1897, inclusive, immigrant aliens arrived; 1892 to 1894, inclusive, and 1898 to the present time, immigrant aliens admitted. Data for years prior to 1906 relate to country whence alien came; thereafter to country of last permanent residence. Because of changes in boundaries and changes in lists of countries, data for certain countries are not comparable throughout. <sup>2/</sup>

- 1/ Data for fiscal years ended June 30 except 1920 to 1931, inclusive, and 1944 to 1949, inclusive, fiscal years ended September 30. 1933 to 1942, inclusive, and 1951 to 1967, inclusive, years ended December 31. 1932 covers 15 months ended December 31; 1943, 9 months ended September 30; 1950, 15 months ended December 31; and 1968, 6 months ended June 30.
- 2/ Data for Austria-Hungary were not reported until 1901. Austria and Hungary have been recorded separately since 1905. In the years 1938 to 1945, inclusive, Austria was included with Germany.
- 3/ Great Britain not specified. In the years 1901 to 1951, included in other Europe.
- 4/ From 1920 to 1968, the figures for Norway and Sweden were combined.
- 5/ Poland was recorded as a separate country from 1920 to 1938 and since 1920. Between 1899 and 1919, Poland was included with Austria-Hungary, Germany and Russia.
- 6/ Between 1931 and 1963, the U.S.S.R. was broken down into European U.S.S.R. and Asian U.S.S.R. Since 1964 total U.S.S.R. has been reported in Europe.
- 7/ No record of immigration from Japan until 1961.
- 8/ No record of immigration from Turkey in Asia until 1969.
- 9/ Prior to 1920, Canada and Newfoundland were recorded as British North America. From 1920 to 1938, the figures included all British North American possessions.
- 10/ No record of immigration from Mexico from 1886 to 1893.
- 11/ Bulgaria, Serbia, and Montenegro were first reported in 1899. Bulgaria has been reported separately since 1920, and, in 1920, also a separate enumeration was made for the Kingdom of Serbs, Croats, and Slovenes. Since 1922, the Serb, Croat, and Slovene Kingdom has been recorded as Yugoslavia.
- 12/ Countries added to the list since the beginning of World War I are therefore included with the countries to which they belonged. Figures are available since 1920 for Czechoslovakia and Finland and, since 1924, for Albania, Estonia, Latvia, and Lithuania.
- 13/ No record of immigration from Romania until 1980.
- 14/ Included with countries not specified prior to 1925.
- 15/ The figure 33,523 in column headed 1901-1910 includes 32,897 persons returning in 1906 to their homes in the United States.
- 16/ Figures for Luxembourg are available since 1925.
- 17/ Beginning with the year 1952, Asia includes the Philippines. From 1934 to 1951, the Philippines were included in the Pacific Islands. Prior to 1934, the Philippines were recorded in separate tables as insular travel.
- 18/ Beginning in 1957, China includes Taiwan.

1/ Figures include arrivals by private aircraft at border ports.

2/ July-September 1968.

3/ Partially estimated.

4/ July-September 1968 and May-June 1969.

5/ July-October 1968 and May-June 1969.

6/ July-October 1968 and February-June 1969.

7/ July-December 1968 and April-June 1969.

8/ July-November 1968 and May-June 1969.

9/ July-December 1968 and January-February, May-June 1969.

TABLE 20. ENTRIES OF ALIEN AND CITIZEN BORDER CROSSERS OVER INTERNATIONAL LAND BOUNDARIES:  
YEARS ENDED JUNE 30, 1928-1969

*Inward movement of aliens and citizens over international land boundaries first recorded in 1928. Each entry of the same person counted separately. Figures partially estimated.*

1/ Six-month figure, January-June 1969.

2/ Excludes 27,082 required departures of crewman technical violators and 161,273 direct departures under safeguards.

TABLE 27A. ALIENS DEPORTED AND REQUIRED TO DEPART, BY STATUS AT ENTRY:  
YEARS ENDED JUNE 30, 1965-1969

Aliens required to depart totaled 95,263 in 1965, 123,683 in 1966, 142,343 in 1967, 179,952 in 1968, and 240,958 in 1969, (see Table 23). This table does not include required departures of crewmen who were technical violators and direct required departures under safeguards--chiefly Mexicans who entered without inspection.

Taking an oath of allegiance in a foreign state ..	503	85	99	46	59	42	32	40	63	35	2
Accepting or performing duties under a foreign state .....	258	57	62	50	20	11	17	14	18	9	-
Other grounds .....	204	10	38	14	19	20	22	18	41	22	-

1/ Cases of 32 persons expatriated for departing from or remaining away from the United States to avoid military service, reported for 1960-1963, were not included because this statutory provision was ruled unconstitutional by the U.S. Supreme Court on February 18, 1963. (*Kennedy v. Francisco Mendoza-Martinez* (372 U.S. 144) and *Rusk v. Joseph Henry Cort* (372 U.S. 224))

2/ The Supreme Court decision in *Afroym v. Rusk* (387 U.S. 253, May 29, 1967) ruled as unconstitutional the law providing for a loss of citizenship by voting in a foreign political election

3/ The Supreme Court decision in *Schneider v. Rusk* (377 U.S. 163, May 18, 1964) ruled as unconstitutional statutory provisions which cause naturalized citizens to lose their nationality by extended residence abroad.

4/ Naturalized United States citizens expatriated in countries with which the United States has treaties or conventions providing on a reciprocal basis for loss of nationality through extended residence in the country of original citizenship.

TABLE 52. PERSONS REPATRIATED:  
YEARS ENDED JUNE 30, 1960-1969
